

DESPERATE

FIGHTING ON THE LEFT BANK OF THE VISTULA, REPORTED FROM PETROGRAD

Every Attempt of Germans to Drive Russians from Advanced Trenches Proved Futile.

(ASSOCIATED PRESS TELEGRAM) Petrograd, Feb. 1.—A communication issued late last night by the general staff of the Russian army reports some further progress in East Prussia and desperate fighting on the left bank of the Vistula. In the region around Borjow, the Russians claim to have recaptured a trench lost to the Germans on the preceding day and declare that counter attacks of the Germans were repulsed everywhere except in one of the Russian saps, which the Germans captured. The statement follows:

"In the forests to the north of Gumbinnen and Pikelien, our troops continuing the conflict, have made progress at some points. "On the left bank of the Vistula on Jan. 30, a desperate combat was under way. In the region of Borjow the Germans, who had captured one of our trenches on the preceding day, were attacked by us after nightfall. After an extremely tenacious struggle we succeeded, with the aid of a bayonet charge, in dislodging the enemy from the trench. We almost annihilated two entire companies of Germans, captured three officers and more than sixty soldiers and also took a rapid-fire gun.

"In the course of the day the enemy made a new attempt to drive us from our advanced trenches, but was everywhere repulsed, after a bloody struggle, except in one of our saps where some elements of the enemy succeeded in establishing themselves. "An examination of prisoners disclosed the fact that the Germans in their attack of the 28th, upon a part of our trenches at Borjow had employed four regiments of infantry, some of which were composed of seasoned men.

"Our artillery on the left bank of the Vistula continued to shell the positions of the enemy with perceptible advantage to us. It demolished a German outpost and some German field works, damaged certain German trenches, put three machine guns out of action, and silenced some of the enemy's cannon. "In Carpathians—the fighting continues along the front between Mount Dulka and Mount Wyszok. Generally speaking, our positions along this front are secure. As to the left wing, the front between Nigla Polianka and Lotovisk we are progressing satisfactorily and every day we take some prisoners.

"In Bukovina there has been nothing more than important encounters between advance guards."

DAIRY WISDOM.

After the cream has been produced and kept in the best of condition it is still possible through carelessness or ignorance to spoil the butter.

It is almost impossible to make a satisfactory churning in a cold room.

Wash the churn and all dairy utensils as soon as the butter has been churned.

Regularity in feeding and milking will go a long way toward making dairy work successful.

The heifer that is cared for and handled gently throughout her entire life will need a little breaking in when it comes time to milk her.

The Milk Separator.

Much of the abuse that has been heaped upon the hand separator should be transferred to the user of the separator. The machine in itself is a wonderful invention and has a place in the economy of dairymen, but it is a machine that cannot be abused without working an injury upon the user.

Switzerland's embroidery trade suffered a loss of nearly \$2,000,000 last year because of fashion's decrees that soft, clinging materials shall be worn.

The HOME Building Association Co NEWARK, OHIO

IT CAN BE DONE

If a short while ago someone had said to you that there were 4,354 people in Newark and vicinity who were going to save in 1915 from \$25 to \$65.75 apiece with but little extra effort and no hardship, you would have exclaimed: "Impossible."

Yet what then seemed impossible-to-day is a reality, due to the plan of the "Old Home" 1915 Christmas Money Club.

When we say to you that you can accumulate a savings fund here of \$50, \$100 or \$250 this year, again you say: "Impossible."

That is because you think of such a savings as a lump sum and not as the union of small, regular deposits made without any great effort every week throughout the year.

may be, you can save something may be. You can save something every week along with thousands of other Steady Savers in this sound Association.

Remember: IT CAN BE DONE.

Remember: IT CAN BE DONE.

Finally Decide Women Voters Must Tell Ages

(ASSOCIATED PRESS TELEGRAM) Chicago, Feb. 1.—Women voters of Chicago must tell their ages when they register tomorrow, according to a ruling today by County Judge Thomas F. Scully. They must answer the same questions, he ruled, that are required of the men. Campaign managers said that the ruling undoubtedly will keep many women away from registration who otherwise would have placed their names on the books.

HUNGARY'S PREMIER URGES CONSTANCY TOWARDS GERMANY

Buda Pest, via Amsterdam and London, Feb. 1.—Count Stephan Tisza, the Hungarian premier, in the course of a speech on the relations of Austria and Hungary and of Austria-Hungary and Germany said: "The war already has been a triumph in fusing together our peoples. It has brought very near together the souls of Austria and Hungary."

In referring to Germany, Count Tisza said: "If ever there were two allies who can have absolute confidence in each other, this is a case now. Witness the glorious exploits of our German allies with enthusiasm free from paltry feeling."

ROUGH WEATHER NO TERROR TO GERMAN SHIPS

(ASSOCIATED PRESS TELEGRAM) Dublin via London, Feb. 1.—"Rough weather has no terrors for the German submarines," declared the captain of the steamer Leinster, in telling of his boat's narrow escape from a German submarine when off the Kish Light vessel, opposite the mouth of Dublin bay.

"When we sighted her late Sunday afternoon, just outside the entrance to Dublin bay, the weather was so rough that not a single passenger was on deck," the captain said. "The submarine approached us when she was submerged but we sighted her emerging less than a mile away. She signalled us to halt or we would be fired upon but I ordered full speed ahead, changing our course every few miles.

"Our pursuer took the weather, and we got the engines up to 24 knot speed and soon outdistanced her."

The Leinster plies across the Irish channel between the ports of Holyhead and Kingstown, on Dublin bay. The outgoing boat, left Kingstown last night as usual. A notice was posted at the pier stating that the incoming boat had been chased by a submarine. As a result all the passengers except three cancelled the trip.

Sour Milk For Calves.

The United States department of dairymen has found out that sour milk is exactly as good to feed a calf as the sweet article. The calf will grow as fast and make as many pounds of meat and is as healthy in every way, provided—listen—the milk vessels and the feeding pails are kept absolutely clean sweet and free of old food. The little acid of the milk does no harm; it's the outside germs that find lodgment in the seams and corners of the feeding utensils that cause the malnutrition and disease in "sour milk" calves.

Natural Result.

"Your voice is all the stronger for your cold."

"How do you make that out?" "It has more hoarse power."—Baltimore American.

Fame.

Witwas—Don't you ever long for fame? Harduppe—Oh, I don't know! Fame only makes it that much harder for you to dodge your creditors.—Philadelphia Record.

The secret of being tiresome is in telling everything.—Voltaire

THANKS

OF EMPEROR WILLIAM EXPRESSED TO LANDWEHR BATTALION AT HEADQUARTERS.

Before Leaving to Join the Crown Prince's Army to Whom Kaiser Sends Greetings.

(ASSOCIATED PRESS TELEGRAM) Berlin, via Amsterdam and London, Feb. 1.—Emperor William, in a speech to a landwehr battalion made before it left general field headquarters, said:

"I congratulate you, comrades. Your wish to go to the front has been fulfilled. I thank you for the good work you did here.

"I am very much satisfied with you for I know what my landwehr is worth. Everywhere the landwehr has fought splendidly. It did so in the east, and recently in the Vosges. It was the landwehr, who, with the bold, brave and energetic for danger, stormed an important height, throwing the enemy off.

"Behave like wise comrades. My wishes accompany you."

Afterward the emperor learned that the battalion was leaving for a place near the crown prince's army. He again addressed the men, saying smilingly: "Give my salutations to my son."

HAD NO LICENSE; PEDDLER IS FINED \$10 AND COSTS

Charged with peddling rings without a license, Tom Vincent was arrested by Police Chief Sheridan Saturday and lodged at the city prison. In police court Monday morning Vincent was fined \$10 and costs and ordered committed. The police are making an effort to break up the practice of unreliable and itinerant peddlers who many times victimize the purchasers of their wares. Five drunks drew fines of \$5 and costs. One man was ordered committed to a cell on bread and water.

GEO. F. HAAS NEW MEMBER OF HEALTH BOARD

Mayor R. C. Bigbee on Saturday appointed George F. Haas of State street, a member of the city board of health to succeed A. L. Rawlings whose term has expired. Mr. Rawlings was an appointee of Mayor Swartz. The appointment will be reported to the city council at tonight's meeting for confirmation.

WINTER FORETHOUGHT.

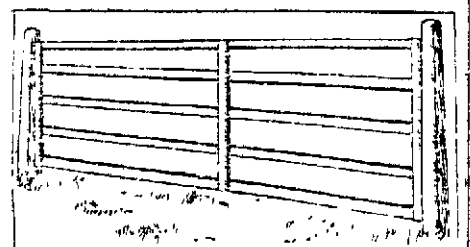

A good soldier looks to his rifle's care before going into battle. There is a time of preparation before he goes into the actual battle. There ought to be a time of preparation before we get into the campaign of another crop year. The time to make the preparations is before the actual beginning of the season's work.

How about the tools, the weapons of the farmer? Were they put away in such a good condition that they will be ready when the first day's plowing is to be done? Oat sowing is not so very far away, and this will be the first occasion to use the breaking plows, the disks, the harrows and the drills. Are all these implements in good shape? Are all the parts in place?

If we were all the sort of farmers who do everything according to rule and plan we would put things away in the dry every fall and winter in such good condition that there would be no necessity of thinking about sharpening shares, tightening bolts and replacing broken and missing parts. But in actual farming we are pretty likely to neglect such things and put them off to be done during the winter. Naturally, we forget all about them when they are out of the way. "Out of sight out of mind" is the rule.—Farm Progress.

Cheap Gate Made in an Hour.

The cheap gate shown in the illustration is a very good kind for a farm gate, says a writer in the Southern Agriculturist. It is made as illustrated, of 2 by 2 inch oak stuff fastened together with spikes. One end is secured to an

ordinary fence post, well braced, of course, as it is an end post, with wire at top and bottom. The other end is secured to another post by one wire near the middle. The wire has to be unwrapped and the gate carried back when a wagon has to go through, but this is not a great hardship, as this does not occur often. Such a gate can be made in an hour.

Another invasion which is causing trouble in France is that of hordes of wild boars which have appeared along the eastern frontier from the German forests.

State News

Judge C. C. Lemert of Zanesville is suffering from blood poisoning, resulting from scratching a pimple on his face.

Prosecutor Smith of Muskingum county ordered the county commissioners to cancel the contract for removing the drift wood from the Sixth street bridge. He says the contract is illegal.

Judge W. R. Gault, prominent lawyer and jurist of Coshocton, died suddenly Saturday night at his home shortly after returning from a meeting at the tabernacle.

Two members of Elsworth Richcreek's family in Coshocton county are dangerously ill of pneumonia and two are in a critical condition due to an attack of typhoid.

West Lafayette's first electric street lights were turned on Saturday night.

Talk is revived at Coshocton that the proposed Cleveland-Coshocton interurban line will be started this year.

Mrs. Wilda Fife, 23, of Canton, was killed and five persons were hurt when an automobile skidded in Akron and crashed into a telephone pole. L. O. Best, who was driving, was arrested for exceeding the speed limit.

Miss Ether Williams, 25, was killed at Toledo by Robert G. Smith, who then committed suicide. Jealousy is blamed for the crime.

Postoffice officials at Washington deny that any formal charges have been preferred against Postmaster Kinnear of Columbus for his part in the trouble which is being investigated by the city council.

SWASEY GIVES \$200,000 FOR RESEARCH WORK

Ambrose Swasey of Cleveland, engineer, scientist and astronomer has just announced a gift of \$200,000 for a foundation for research work in engineering. By the deed of the gift, the income from the money is to be used in advancing Engineering arts and sciences in all branches.

Mr. Swasey is the donor of the gymnasium of Denison University and is one of the patrons of the school, always being interested in its advancement.

GOOD MANAGEMENT MAKES DAIRY PROFITS

A man may possess a herd of good dairy cows, but without proper care and management the herd may prove a loss to him instead of a profit.

In the first place he should know whether his cows are good or otherwise, and this he can ascertain by testing. Various forms of test have been recommended, and each is good in as far as it enables the owner or herdsman to know the actual production of each cow in his herd. No one ought to be satisfied with anything short of that. It is not sufficient to know you have a good herd and that on the average profits are produced. I personally favor a test which requires the weighing of the milk twice daily and the determination of the butter fat for at least three successive days each month. Many instances might be cited to show the value of testing, but only one will be given.

A dairyman six years ago began keeping records of the production of his cows. He found the average yield of butter fat was 175 pounds per cow per year. Weeding out and grading up was then commenced. At the end of

The proper type of a milk animal is one of the strongest requisites for successful farm dairymen. says Hoard's Dairymen. The farmer should have an ideal type indelibly fixed in his mind. He should always look for the animal that represents the best qualities of a milk producing type. Of the five dairy breeds the Holstein, Jersey, Guernsey, Ayrshire and Brown Swiss the Jersey seems to be best suited for southern conditions, while the other breeds are doing best in northern sections. The cow shown is a pure bred Guernsey.

five years the average yield of butter fat was 475 pounds, an average increase of 300 pounds per cow.

Fall calving cows should annually yield from 10 to 15 per cent more milk than those calving in the spring. This being true, an even greater increase in butter fat would result for the average test of the milk is somewhat higher in the winter than in the summer months. Good authorities claim that the increased yield of butter fat secured from fall calving as compared with spring calving cows is at least 20 per cent. The extreme heat of summer often causes the fat content in a cow's milk to drop. I have known Guernsey cows giving milk testing around 5 per cent drop to almost 3 per cent during a time of extremely hot weather.—K. G. McKay Before Saskatchewan Dairy Convention.

CRASH

OF ELECTRIC CAR AND FREIGHT RESULTS IN THREE BEING KILLED

Collision Occurred in a Dense Fog While Both Car and Train Were Speeding.

(ASSOCIATED PRESS TELEGRAM) Cincinnati, Feb. 1.—Three persons were killed and thirteen others more or less injured in a collision between an electric passenger car and a steam freight train on the Cincinnati, Georgetown and Portsmouth Traction line, near Amelia, Ohio, today.

The dead: Frank Henderson, of Bethel, Ohio. Frank Smith, Amelia. Hoover.

The injured: James Hulick, Batavia, arm broken. Thomas Filhelen, conductor, arm broken. William Meyers. Hendricks.

The accident occurred during a dense fog and on a straight track of a mile in length. The traction car was running east while the freight, which is also owned by the C. G. and P. was coming west. Both the traction and freight were going at high speed, and they came together with a resounding crash, the former completely wrecked and scattered into a nearby field.

Hulick is the father-in-law of former Lieutenant Governor Hugh L. Nichols of Ohio.

PITTSBURGH YARDS REOPENED UNDER SOME CONDITIONS

(ASSOCIATED PRESS TELEGRAM) Pittsburgh, Pa. 1.—The Herr's Island stockyards here, closed last week because of the foot and mouth disease, were today reopened for the receipt and shipment of livestock for immediate slaughter. The yards have been quarantined and fumigated three times since the foot and mouth disease appeared last fall.

Is Your Child Slow In Learning?

TROUBLESOME PROBLEMS FOR PARENTS EASILY SOLVED.

Often children who study the most without results, suffer from some disorder of the stomach or liver. The liver becomes torpid, the bowels are irregular. As a consequence the brain is dull and concentration of thought is impossible and the memory is impaired. Give the child Lax-Uric. A harmless preparation that stimulates the liver and regulates the bowels. In fact you will never go wrong by giving Lax-Uric. Twenty-five and 50 cents a bottle at Frank D. Hall.

GREECE WILL AID SERBIA TO REPEL EVERY INVASION

(ASSOCIATED PRESS TELEGRAM) Paris, Feb. 1.—A dispatch to the Balkan agency from Athens says: "Greece with all her forces will come to the aid of Serbia in every fresh invasion of Serbia by the Austro-German armies. The greatest activity prevails now in military quarters."

PLANNED THEFT OF REGISTER IN LOCAL POOL ROOM

Frank Bageant was arrested Saturday and lodged at the city prison marked "held for investigation." Police claim that he was overheard to tell of plans he had with another Newark man to steal the cash register from the pool room of the White & Meier cafe in North Park Place. No charge was filed against Bageant and he was dismissed from custody.

GRANVILLE

Mr. and Mrs. Gurney Oberlander who have been visiting here have returned to their home in Bucyrus.

Mrs. Calvin Disbennitt has returned from a visit with her sister at Johnstons.

Mr. Paul Hawke of Chillicothe is spending a few days here with his father, Rev. A. J. Hawke.

True, the three year old daughter of Mr. E. O. Lines of East Broadway, met with a painful accident while playing about the house. She fell on a piece of lath which she was holding in her mouth, the lath penetrated the back of her mouth inflicting a very painful wound. She is getting along very well and no serious results are expected.

Woven wire poles for electric wires or lights have been invented by a Chicagoan.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that one's system collects.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition. Dr. Edwards' Olive Tablets, the successful substitute for calomel—10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

No "Ten-Cent Loaves"

nor "six-cent loaves," nor "five-cent loaves"—just a penny, and no more, buys one of those little loaves of

Shredded Wheat

and remember it is the whole wheat—not just the white flour center of the wheat grain. It contains all the rich, body-building material stored in the whole wheat berry, steam-cooked, shredded and baked. By this process every particle of the wheat berry is made digestible in the human stomach and is readily converted into healthy tissue.

In a package of Shredded Wheat Biscuit you get twelve loaves of whole wheat for twelve cents. Two of these Biscuits, served with hot milk, make a warm, nourishing meal, supplying all the strength-giving nutriment needed for a half-day's work with hand or brain. Just the food for the kiddies' breakfast before rushing off to school. It is ready-cooked and ready-to-serve. Always the same price, always the same high quality. All grocers sell it.

Proposed City Bond Issue Demands Careful Thought

The city council will tonight consider a proposition that is of vital interest to Newark, and whatever ultimate action is taken should be only after careful thought, a discriminating judgment.

The proper lighting of the city is of the utmost concern, and the ways and means best calculated to efficiently do this work, ought to be the prime object of the city's law makers. Efficiency is the end sought but only secondary is the question of cost of obtaining an adequate light system, for the present with due regard for expansion in the years to come.

The present plan is inadequate, antiquated and inefficient. This much is indisputable, and there are two methods offered to the council. One is to buy the current from some private corporation, the other is to issue \$20,000 bonds to build and equip a new plant to be owned by the city.

Service Director W. C. Christian at the last council meeting submitted figures tending to show that it would be economical and altogether the proper thing to issue the bonds; that by the city making its own electricity the light could be furnished at about 8-10 cents per kilowatt, whereas the Ohio Light and Power Company, could furnish the city current for about a cent per kilowatt higher.

The city council employed Harry F. Hittner, or Mr. Vernon, chief electrician for the Pittsburgh glass company, who is an expert, to examine Mr. Christian's comparative figures in order to ascertain their accuracy. Mr. Hittner is to report his findings tonight.

This report will probably be unbiased and based upon a thorough examination into the subject, but there is more, it would seem, involved than the mere question of the accuracy of Director Christian's comparison.

Seven Dollars a Minute.

The rate of \$16.45 for three minutes talk over the new telephone line from Newark to San Francisco will be prohibitive for ordinary conversation, but it will be used more for business than most people realize.

When the telephone line was first extended from Newark to New York it was used very little but now calls to New York, Boston, Washington, Chicago, St. Louis are frequent and occasionally the line is used for more distant points. The new rate from Boston to San Francisco is \$21 for three minutes, seven dollars a minute.

The growing use of the telephone over distances of a thousand miles or more is a feature of modern life. It is so much more satisfactory than

letters. The most essential point of your letter may be passed over almost unnoticed by a correspondent. It is remarkable how many good business men fail to express themselves definitely when it comes to putting it in black and white. They leave out some essential point, and the correspondence has to begin all over again.

To many people who do not have large business interests, a conversation over a hundred miles seems a rather flustering experience. Quite frequently they ask some one to talk for them, though their hearing may be perfectly good. Their ordinary faculties are bewildered by the wonder of a scientific marvel that is the merest commonplace to the business man.

Long distance telephony depends on complete perfection of connection. Patrons may submit to the struggle to make their voices heard above a buzzing wire on a short distance connection, repeating and spelling out words over and over again to guard against mistake. But at \$7.00 per minute, there can not be a single link of noisy line.

It is quite an art to use costly telephone conversations with a minimum of expense. A great deal can be said in three minutes. The points of the conversation, and the questions to be asked, should be written out as carefully as if you were delivering a formal address. Every time you say "er—er—", as you jolt along in ordinary talks, costs high.

"One Way Out."

A book with the above title, published a year or two ago, told a vivid story of how two young people on being forced to give up a regular salary and live on the proceeds of day labor, got along on a very slender income. One of the ideas emphasized was that they bought most of their clothing and furniture, and a large part of their food, at advertised sales, where they got large reductions.

This is one of the most practical ideas as to how the cost of living can be reduced. It seems strange that there are people who will growl about high prices, and yet fail to take advantage of these chances.

Here in our columns is a constant record of genuine chances to save money. They are particularly in evidence at this season of the year, when old stocks have to be closed out. But every week in a year there are good chances being offered by live merchants.

Newspaper advertising is so universally read that practically every one knows about these opportunities. But the spirit of inertia that is constantly keeping people from realizing their opportunities, keeps some from snapping up these chances.

Often these bargains go to the well-to-do, who constantly display the same qualities of thrift by which they won an independent position. Meanwhile many hard pressed people on the verge of bankruptcy, are too indolent to seize the constant opportunities offered to save money.

The very first item in any plan to reduce expenses should be to read attentively the newspaper advertising, column by column. Special offerings, that you know you will want later, should be taken up on the spot. If you can buy for 75 cents today what will cost you \$1.00 on March 1, you would better borrow the money rather than let the chance slip by. When March 1 comes, you will have an extra quarter to spend elsewhere, or to lay away.

Movies Not to Blame.

(Pittsburgh Dispatch.) "Pawnee Bill," whose gentle and amate real name is Lillie, writing from Pawnee, Okla., to the New York World, denies charges that moving picture shows are in any way responsible for "the avalanche of bank robberies." In the good old days he was a farmer, Dalton and Cook boys he was right in the thick of train and bank raids. There were 100 times more of them than now, and there were no "movies."

Out Oklahoma way, according to Mr. Lillie, bank robbing is being

made a pastime for the reason that it pays better than boot-legging, and he cites several recent robberies that were committed by former boot-leggers. This is a new aspect of crime, and it might be argued that if the State would abolish bank robbing it would be economical for it and the banks to combine for the encouragement of bootlegging. Better wood alcohol for the mass than the robbing of banks for the few!

Possibly, however, it is a question of morality. The boot-leggers may really have been men of well developed consciences. They may have been shocked by the misery for which their illicit profession was responsible, decided to hit the trail of reform, and by some occult moral reasoning concluded that a reformed boot-legger could with angelic innocence become an untrammelled bank robber, especially in a State where bank robbing is as popular as poker and three-card monte.

Pointed Observations

President Wilson showed a fine quality of independence in vetoing the immigration bill.—New York Tribune.

A message of thanks from Europe every now and then reminds us that the good old Christmas ship is still sailing on its happy voyage down the stream of time.—Chicago Herald.

Some of the Easter hats, it is announced, will be shaped like battle-ships. And they may be expected to sport hubby's pocketbook full of holes.—Pittsburgh Gazette-Times.

Don't forget to feed the birds. —Mansfield News.

Reports of delivering liquor in West Virginia by aeroplane may put the authorities in the air for a time. —Pittsburgh Dispatch.

The award of \$116,000 for breach of promise made by Maur court indicates the upward cost of fickleness in courtship. —New York World.

American bankers have loaned \$15,000,000 to Argentina. A good example. Business always follows the line of most assistance.—Chicago Herald.

Spirit of the Press

Votes for Women.

When a Woman Suffrage bill is favorably reported in the lower house of the Texas legislature it begins to look as if even portions of the South might some day be cured of their implacable hostility to votes for women.—New York World.

Moving Pictures.

In no instance is it claimed the moving picture show is a detriment, so long as the pictures are clean and wholesome, as they generally are. It is the cheapest, the sanest, the most instructive and pleasing amusement that has yet been invented.—Dayton News.

Taking Losses With Profits.

The decision of the United States Steel corporation not to reduce wages deserves a word of commendation. Though the great concern is doing only about one-third of its normal business, it is undoubtedly better able to stand the hard times than its 225,000 workmen would be if they had a cut in pay. It is coming to be more and more generally recognized in great business establishments that to give more attention to the welfare of the workmen is poor policy. To lower wages or, worse still, to discharge large numbers of workmen in time of industrial depression puts a burden on the community which sooner or later finds its way back to the employers in impaired work, increased taxes for taking care of the unemployed and the like. It is better for the biggest concerns to try to stand the strain of hard times as the Steel corporation is generously doing.—New York Tribune.

Meat.

Chicago meat packers declare they have been driven from the seas and cannot ship their products. If, as they have long contended, the law of demand and supply governs prices, have they lowered the cost to the consumer of their products? —Woman's National Weekly.

Physically Defective Children.

When one reads that the medical examiner at Freeport declares that half the children in the village schools are physically defective, one is inclined to sympathize with the parents whom Dr. Dean is trying to call to account for their failure to consult a physician and have the troubles treated. If the defects are serious there is probably ground for the campaign which is being conducted for medical care. But it is

obvious to any observer that the school physicians of today are setting up a standard of physical health far higher than any which most of the parents of their charges knew about in their youth.—Brooklyn Eagle.

Mr. Horse Still in the Lead.

Mr. Horse still holds over Mr. Automobile. The horses of Ohio are worth two and a half times more than our motor cars. There are only three counties in the state where the cars are worth more than the horses, and they are the counties containing Cleveland, Cincinnati and Toledo. Ohio's horses increased in value \$7,000,000 last year.—Gallopis Tribune.

Uncle Walt

BEING READY.

"Let preparations never cease—the strongest guaranty of peace is readiness for war." So we've been told by statesmen great,

who navigate the ship of state, that we pay taxes for "If we'd feel safe we must prepare, with airships we must fill the air, and stock the sea with ships; we ought to blow a billion yen to drill and train a host of men, if we'd avoid eclipse." And even now, while Europe rocks, beneath her armies' mighty shocks, our statesmen talk the same. "We must be building battle boats, if we'd preserve our sacred goats, and sidestep grief and shame." And it was Europe, gentle niece, that guaranteed a lasting peace by loading up for bear. Whenever she acquired some man, she blew it for a wet elm gun, till she had guns to spare. And Europe's sons, for countless years, have toiled in agony and tears to pay a brutal tax to pay for "guaranties of peace" they labored till death should release the burdens from their backs. The peaceful man won't carry arms; he has no use for war's alarms, his quiet way he goes; but once you arm him to the ears, with boomerangs and guns and spears, he'll surely twist your nose.

Not of Great Importance

IT'S A LONG WAY—

We worry through, as best we can, The freezing, thawing month of Jan. And, spirits at their lowest ebb, Watch what the ground hog does to Feb. With backbone quite devoid of steel We face the bitter winds of March. But most of us will cut a caper. When the calendar says briefly, April. And is there much the matter, say? With weather handed us in May? But when the world gets right in tune, When days, though long, are gone too soon. When bright the sun and soft the moon, Then how we wish 'twere always June.

The groundhog will be here tomorrow to tell us what will happen during the next few weeks. Here's hoping!

The debt of gratitude, probably is the hardest to collect.

Some attorneys practice law. Others merely show a willingness to do so.

The eight-hour day for women is

always had the eight-hour day—eight hours in the forenoon and eight hours in the afternoon.

When a man loafs, he loafs. When a woman loafs, she shops.

There is this to compensate you for listening to the man who wants to tell all he knows. It never takes long.

Poker chips and a Methodist preacher's furniture are alike in the respect that neither has a permanent abiding place.

Next to a loafer, a legislative employee has the least to do.

At 50 every man engages in a desperate battle to save the teeth and hair he hasn't lost.

A few men are looking for work. The others are looking for an argument.

nothing new. Farmers' wives have

GERMAN PAPERS ARE UPHOLDING COMMERCE WAR

(ASSOCIATED PRESS TELEGRAM)

Berlin, via Amsterdam and London, Feb. 1.—The German newspapers comment extensively on the German submarine raid in British home waters.

"We hope that the commercial war now taken up by German submarines in British home waters," says the Tages Zeitung, "will strike at the root of the British trans-oceanic trade."

Captain Persius, the naval expert of the Berliner Tagblatt, has this to say of the event in his paper:

"Especially remarkable is the theatre of new action. Hitherto, the most advanced point where our submarines displayed activities was in the westerly outline of the channel, but henceforward the English merchant navigation will have to reckon with other German submarine dangers which it can only avoid when it stops traffic."

The Post says sarcastically: "We see that England's attempt to cut off the supply of victuals by highering all foreign trade promises great success."

All the papers express enthusiasm over the doings of the submarine as ushering in the war upon Great Britain's commerce as heralded by Admiral von Tirpitz. Attention is called particularly to the fact that "U-21" is operating a thousand miles from her base, which is a greater radius of activity than hitherto was believed possible. The argument is advanced that what already has happened to small coasters, may tomorrow happen to the great English liners.

Society

The Brightening Circle of The King's Daughters will meet tomorrow afternoon with Maria Potter in Pearl street.

Those who enjoyed a moonlight sleigh ride on Friday evening were: Misses Laura Gibbs, Neva Bolderand, Helen Crawford, Marion Gordon, Helen Gibbs, Alma Boller, Pearl Atwood, and Vera Gifford; Messrs. Earl Higberger, Allen Snider, Charles Demsey, Florgen Solum, Orville Franklinsky, John Boyd, Ralph Solum. The party was chaperoned by Misses Nettie Campbell and Edith Crawford.

Announcement is made of the engagement of Miss Mary Cella Wehrle of 176 West Church street to Dr. Willard C. Rank. The bans for the wedding were published at St. Francis de Sales church on Sunday morning. The wedding will be solemnized on February 9.

A number of young people enjoyed a sleighride to Granville and on returning to Newark a lunch was served at the home of Miss Dorothy Halderman in South Third street to the following: Misses Goidie Inhoff, Dorothy Halderman, Rachel McLaughlin, Bernice Peas, Mabel Spetel, Anna Wheeler, Amy Stortz and Leona Gilmore; Messrs. Homer Fairall, Howard Workman, Washington Gleason, Kenneth Brubaker, Paul Hickey, Sherman Fairall, George Wiley and Wilber Snook. The party was chaperoned by Miss Addie House of Defiance, O.

On Friday evening a masquerade surprise was given at the home of Mr. and Mrs. Charles L. Jones, at 74 Orchard street, in honor of their daughter, Miss Eva F. Jones' birthday anniversary. The evening was spent with games and music, and at a late hour luncheon was served.

The guests were: Misses Freda Nye, Bola Buchanan, Bertha Jones, Ruth Stone, Gladys Nye, Vattie Jones, Rosa Stidd, Hazel Jones, Hattie Nye, Martha Whidline, Iva Jones, Messrs. Homer Shepherd, William Wharton, Raymond Shaw, Wilbur Nye, Ernest Shaw, Frank Nye, Mr. and Mrs. Perry Nye, Mr. and Mrs. Carey Buchanan, Mr. I. H. Wharton, Mrs. Harvey Jones, and Mr. and Mrs. Charles L. Jones.

SIX TEAMS TIED IN BICYCLE GRIND.

(ASSOCIATED PRESS TELEGRAM)

Chicago, Feb. 1.—The positions of the contestants in the six-day bicycle race were unchanged today at the end of the eightieth hour of the competition. The six leaders—Moran, McNamara, Egg-Verri, Walker-Road, Wraith-Piercy, Corry-Carmon and Drobach-Bedell had covered 1,566 miles, 8 laps. Mitten-Wiley, Linhart-Tupay, Anderson Hansen and Kopsky-Columbato were one lap behind and Porrost-Rudi-Russe were trailing three laps from the leaders.

NEW ZEALAND WILL BUY CANADIAN WHEAT.

(ASSOCIATED PRESS TELEGRAM)

Wellington, New Zealand, via London, Feb. 1.—New Zealand has arranged, it is announced here to purchase 1,000,000 bushels of Canadian wheat for delivery in July.

Read Advocate Wants tonight.

Carefully Treat Children's Colds

Neglect of children's colds often lays the foundation of serious lung trouble. On the other hand, it is harmful to continually dose delicate little stomachs with internal medicines or to keep the children always indoors.

Plenty of fresh air in the bedroom and a good application of Vick's "Vapo-Rub" Salve over the throat and chest at the first sign of trouble, will keep the little chaps free from colds without injuring their delicate systems. 25c, 50c, or \$1.00.

Latest Bride Picked Out for Justice McReynolds.

Associate Justice McReynolds of the United States Supreme court has had another bride picked out for him by the Washington matchmakers. Since he is a bachelor, and one of the most eligible in the country, being the youngest member of the highest tribunal in the world, Capital society has been busy marrying him for the two years he has been in Washington. This time the bride-to-be is Miss Lucy Burleson, daughter of the postmaster general.

The gleam of what appeared to be an engagement ring was seen on the

finger of Miss Burleson as she came out of a theater the other evening with her arm through that of Mrs. Marshall, the wife of the vice president. Members of the party asked Miss Burleson if her engagement was out at last, whereupon the young woman blushed and covered her confusion by laughing and thrust her hand into her muff. And now the report, often circulated and denied, that the postmaster general's daughter, who is only twenty-one years old, and Justice McReynolds are engaged is accepted in Washington society.

Enfranchisement Of Women a Step Toward Democracy

By Dr. ANNA HOWARD SHAW,
President National American
Woman Suffrage Association

FOR the first time in the history of our cause suffrage is being discussed in the lower house of congress. AND, WHATEVER THE OUTCOME OF THIS DISCUSSION, IT DOES NOT AFFECT THE GAIN MADE BY HAVING THE SUBJECT BROUGHT OUT OF COMMITTEE AND MADE A LIVE ISSUE IN CONGRESS.

I feel that our field of work is now so broad as to make woman suffrage no longer a question of expediency, but rather a political issue. All political parties have recognized this as a fact, and the question is now up for consideration by all legislative bodies in nonsuffrage states and by congress.

I BELIEVE FIRMLY THAT THE ENFRANCHISEMENT OF THE WOMEN OF AMERICA IS THE GREATEST STEP THE COUNTRY COULD TAKE TOWARD THE ESTABLISHMENT OF THAT DEMOCRACY OF WHICH WE TALK.

MARKET GARDENING.

Nearly all of our inland towns and cities are poorly supplied with asparagus. This crop when properly managed may be produced profitably on any good, ordinary farm land. A little science put into the production and selling of this crop will bring a return of \$800 or more to the acre. Here is an opportunity perhaps for one of the boys and girls.

Real early tomatoes are nearly always profitable, and they are so easy to grow. The essentials of success are a good variety, like Earliana, seeds sown not later than March 1, plants grown in pots in hothed or greenhouse and good care in the field.

Early potatoes and sweet corn also afford good opportunities in some communities. These crops, too, do not require great skill. Heavy clover sod, which provides the very best conditions for field corn, is equally good for early potatoes and early sweet corn.

In the future in all probability a larger percentage of the vegetables consumed in our centers of population will be grown more and more remote from the cities and very largely by general farmers who follow a definite system of rotation, the vegetables following clover.—National Sto kman and Farmer.

Columbus, Feb. 1.—Equity Oil and Gas Company, Zanesville; increase from \$25,000 to \$50,000.

EVERYDAY ETIQUETTE

"Is it proper to put black bands on sleeves out of respect to a member of the family who has died?" asked Frank.

"This practice is a relic of the days when servants were made to wear bands on their sleeves out of respect to the death of any one in the family in which they were employed. If one cannot afford to wear black garments it is best to refrain from wearing the band," replied his uncle.

DYNAMITE AND TREES.

Explosive Is Recommended to Give Vigor to the Orchard.

Until recently a stick of dynamite was about the last thing a fruit grower would have thought of taking along when he went to plant young trees. Now, however, according to an English agricultural journal, science is urging that the explosive be used in the planting as an effective means of hurrying the tree's growth and making it yield more fruit.

When an explosive is employed instead of a spade the soil is shaken up and fissured for a comparatively wide area beyond the hole actually required for the tree.

Experience has shown that trees planted in ground prepared by explosives make a much more vigorous and rapid growth than when planted in the ordinary way. Some trees have begun bearing after four years, while others similarly situated, but spade planted, did not yield fruit until six years.

In the case of existing orchards little can be done in the ordinary way to aerate or render the soil more pervious to the roots and moisture, but a small cartridge inserted at some depth below the tree or a larger one exploded at a depth of three feet or so below the surface and midway between trees planted about fifteen feet apart has a beneficial effect in loosening the soil without injuring the trees.

The roots have less resistance to overcome, the soil is aerated, the moisture retaining properties improved, and a new lease of life is thus given to an old orchard.

Coulter & McKay Purchase "The Fair"

Coulter & McKay, the West Main street hardware men, have purchased the stock of goods owned by A. Schiff proprietor of The Fair, in the Arcade and Union blocks. The new proprietors have assumed charge and will conduct a large sacrifice sale of goods at The Fair in able to make room for their new stock of hardware which they will move into the latter room in the very near future.

Marriage Licenses.

Allen F. McDonald, glassworker and Miss Winnie C. Richards, both of this city. Rev. C. W. Baker named to officiate.

Rev. Green, farmer, of Johnstown and Miss Helen L. Trach of Granville. Rev. Carl Alexander to officiate.

INCOME TAX IS NOW PROPOSED IN NEW YORK CITY

(ASSOCIATED PRESS TELEGRAM)

New York, Feb. 1.—Four new sources of revenue to the city, the chief of which is a proposal to impose a special tax on all persons who receive an income of more than \$2,000 a year in New York City, are among the recommendations of the mayor's tax commission, which go before the board of estimate today.

A salary tax, it is estimated, would yield from \$3,000,000 to \$4,000,000 a year, and bring the annual proceeds accruing to the city from the new taxation scheme to a total of \$20,000,000. The proposed rate of taxation is 45 on every \$1,000 in excess of \$2,000, and proportionately more or less on larger or smaller amounts. It is said that few recipients of salaries or incomes less than \$2,000 would pay the tax because the assessment would be so small that it would not warrant the cost of collection.

The salary levy would be independent of and in salary to the federal income tax and of all other taxes. There would be no sex exemption and it is said that 6,000 women would be affected by its provisions.

Personal

Mrs. Carl Evans went to Johnstown today to spend the week with her brother, Russell Frederick.

Tom Russell of Youngstown was the guest of Walter Early over Sunday.

J. A. Bales, a well known B. and O. employee, who has been ill for the past five weeks, is now able to be out.

William E. Miller of the Newark Hardware company, is spending the day in Columbus.

Mrs. Mary Schlosser of 243 Lawrence street, is recovering from an attack of bronchitis.

Mr. and Mrs. Ralph A. Hutchinson and children of Hudson avenue and Miss Rhea Ingler spent Sunday with friends in Zanesville.

Mr. and Mrs. J. W. Davidson and sons Wallace and Ross of Elmwood avenue and Miss Elizabeth Weisgerber spent Sunday at the home of Arthur Davidson in Frazesburg.

Mr. Clarence Toothman of Utica, O., spent Saturday and Sunday with his sister, Mrs. J. W. Davidson of West Holliday street.

Fred Bobot, son of Mr. and Mrs. Clement Bobot, 548 Daniel avenue, left Sunday evening for St. Proctus college, Lisle, Ill.

Mr. and Mrs. Carl C. Woolson and daughter Jean, were in Newark Sunday, guests of Mr. and Mrs. Frank Woolson of Tenth street.

Dr. Carl Evans of West Locust street is in Chicago on professional business.

Mr. and Mrs. Carl A. Walton were the guests of Newark relatives Sunday and Monday. Mr. Walton was formerly connected with the Panhandle railroad offices in this city.

Mr. Harvey Moore of the Virginia Hotel at Columbus, was a visitor in the city Sunday and met many of his old friends. Mr. Moore was manager of the Orpheum theatre in this city for several seasons.

Clyde Reasner, state president of the Ohio Association of Elks was a visitor in the city Sunday. He spent a couple of hours in renewing old acquaintances at the Elk club rooms.

Brigadier General Frederick J. Ward and wife of Seattle, Washington, were guests of the former's brother, C. A. Ward in North Fifth street. General Ward is now retired from active service.

Prize Winner is Licking County Man

S. R. Reelhorn of Kirkersville, this county, has received notification that he has been awarded first prize in a book lovers' contest, conducted by a paper in Salt Lake City, Utah.

As a result of Mr. Reelhorn's efforts he will receive \$250 in gold, the first prize. The total prizes amounted to \$500. The Licking county man had 65 answers correct out of 66 pictures forming the contest. When The Advocate had its contest Mr. Reelhorn captured the eighth prize.

First Steps in English.

The police in Calcutta caught a native coming out of a shop early in the morning and arrested him on suspicion. The man had on the previous evening concealed himself inside the shop and had employed the time until morning in fitting himself with a complete suit of clothes, including a white shirt, with studs and links, a red tie, carefully put on, black socks, a pair of patent leather shoes, watch and chain, handkerchief, pocket knife, straw hat and cane. He even went the length of writing his name inside the hat. On being arrested before a magistrate he gave the queerest excuse imaginable. He said that he wanted to learn English and, as a preliminary step, thought it best to dress like an Englishman.

Value of Corn Silage.

When corn is put into the silo it does not increase in feeding value during the process of fermentation a portion of the nutrients are lost. It is estimated that 18 to 10 per cent of the feeding value of the corn is destroyed by the process of fermentation. In the silo, corn never has a higher feeding value than when it is cut and put into the silo. It may be said, however, that there is no method of preserving the corn plant that will save any more of its nutrients than ensiling and no matter what system is followed of preserving it some is lost.—Hoard's Dairyman.

Artificial flowers for millinery are being made to inclose tiny incandescent lamps, which can be supplied with current from storage batteries inside their wearers' hats.

Granville

(Special to The Advocate)

Granville, O., Feb. 1.—Miss Grace Chamberlin, the efficient librarian at the Public Library is taking the initiative in a series of moving pictures to be shown in the Opera House here, beginning Thursday evening at 8:15. There will be three evening and two afternoon performances, and the pictures will be high class entertainments. Miss Chamberlin has undertaken this rather strenuous work in the interests of the library, and all good citizens should feel it their privilege no less than their duty to cooperate, to the extent of their liberal patronage. The library is a long felt want in Granville, and while reasonably prosperous, is far from being adequate to the daily demands of a town like this. As there is no regular "movie" in town, it requires a good deal of special effort to present these reels, and it is expected that the public will show their appreciation by a large attendance at each performance. Rev. Mr. Haskins will donate his new machine which will be operated by an expert. For further particulars apply to Miss Chamberlin in the library.

Mrs. Frank Rue of Trenton, N. J., with her brothers, Mr. Clark Wright of Pittsburgh, Pa., and Mr. Walter Wright of Helena, Ark., are at the old family home in East Broadway, having come to attend the funeral services of their father, Mr. Theodore F. Wright, whose death in Los Angeles last Tuesday, was announced last week. This home coming is doubly sad in that their mother is ill in Los Angeles, requiring the care of their sister, Clara, and their brother Frank. Funeral services were held at the family residence this afternoon at 2:30 o'clock. Dr. C. L. Williams officiating. Pall bearers were Mr. Rickert of Newark, Mr. John DeBow, Mr. Theodore Baker, Mr. George T. Jones, Mr. Henry Jones, Mr. Ed Reed of Granville. In the death of Mr. Wright, Granville has lost one of her most prominent and best loved citizens, and the family has the sympathy in their bereavement.

Mr. G. A. Schofield of Chicago, president of the Clark Advertising company, will arrive in Granville this evening where he will be the guest of Mr. and Mrs. Howard Darrow in South Main street.

Miss Clara Loomis, a student at O. S. U., was the guest over Sunday of Miss Grace Chamberlin.

Mr. and Mrs. C. J. Pence of North street, have been guests of Mr. and Mrs. S. M. Pence in Urbana, O., during the past week.

Mr. and Mrs. Walter Rankin of Dayton were guests at the home of Judge and Mrs. J. M. Swartz over Sunday. Mr. Rankin was a member of Phi Gamma Delta while in Denison, and Mrs. Rankin (Mary Louise Chamberlin) belonged to Chi Psi Delta sorority.

Mr. and Mrs. Howard Darrow entertained a few of the Academy young people after the Denison-Westleyan basketball game Saturday evening, with a charming little supper.

The Spencer Bible class will hold its regular monthly business meeting in the Baptist church parlors this evening at 7:30. All members are urged to be present.

The ordinance of baptism was administered at the Baptist church last evening by the pastor, Rev. Millard Bradford. Prof. Eschman of the Oregon rendered Hammond's noble "Vespers" as a prelude. Following the impressive baptismal service the customary Sunday evening service was enjoyed by the congregation, with an unusually fine sermon by the pastor on "Launching Out Into the Deep."

The basketball game in Cleveland Hall Saturday evening between Denison and Ohio Wesleyan was full of excitement and thrills even for the outsider. The contest tonight between Denison and Oberlin promises to be a record-breaker for interest and excitement. Everybody goes!

Funeral of Ezra Smith.

The funeral of Ezra Smith will be held Wednesday morning at 10 o'clock at the home 133 Ninth street. Rev. L. C. Sparks will officiate and interment will be in Cedar Hill cemetery.

In Milady's Boudoir

BY GWEN SEARS.

WINTER EXERCISES NECESSARY.

The besetting temptation at this time of year to women is that insidious one which has to do with the slacking up of all effort to secure regular exercise. Out of doors may not be any too pleasant, there seem to be many evening diversions, next

day finds the mind ill disposed to anything but the necessary exertion, inclined to a nap for the easy chair.

Then, too, just now the pleasures of the table are many. Cold weather breeds hearty appetites; rich cakes and puddings, succulent roasts, all offer themselves plentifully. Hearty meals are eaten, then

follows the doze in the warm and pleasant bedroom. Is it any wonder that the woman inclined to stoutness finds herself adding more than the proverbial pound of flesh, that the thinner sister so often sees herself fallow and pale as the winter months march on?

In every way the current seems to set toward pleasure and idleness. Men realize this more than women, and that is why during the winter you find them by the score in the various gymnasiums of the city, running mile, swimming steadily or playing handball until profuse perspiration is the result.

Men realize more than women what a mistake it is to wait until one has lost tone and has become fat and sluggish before measures are taken to prevent; they know very well that the best cure is prevention, and so they start in with all such vigorous measures just as soon as the weather tightens its grip upon the great outdoors, making it an unpleasant playground.

When the right exercise is taken throughout the winter, spring does not find one debilitated and worn. It stands to reason that after the summer and fall of more or less activity one can not shut down upon it without losing something thereby. This inactivity, combined with the hearty food of winter, will add nothing either to the health or strength of any one, and in some cases will show itself in a roughened, pimpled complexion, in paleness or sallow skin, pale lips, a general tired feeling, which means biliousness; cold hands and feet, if not more serious ills.

WAR PRICE FOR WHEAT BROKEN; OPENED AT \$1.54

(ASSOCIATED PRESS TELEGRAM)

Chicago, Feb. 1.—Smashing of high record war prices continued today in the wheat market here. On top of an advance last week ranging from 7 1/2 to 8 3/4 cents, quotations today jumped as much as 2 1/2 cents at the very outset. May delivery selling at \$1.51 a bushel as against \$1.51 7/8, when the market closed Saturday.

Increasing urgency of European demand for wheat was indicated by a decided fresh upturn in prices at Liverpool.

Before midday another cent a bushel and more had been added to the value of wheat. May delivery rising to \$1.55 3/8. Removal of import duties on all grain by Italy and Sweden had much to do with causing the new advance in quotations. Dispatches printed on the tickers here close beside the trading pit say bread riots were taking place daily in Italy.

The decrease in the visible supply for the week turned out to be about four times as large as at the corresponding time a year ago. Profit taking, however, led to something of a setback in prices near the close. It was a nervous finish, with May \$1.56 1/4-1/2, and the market as a whole 2 1/2 to 4 1/2 above Saturday night.

None of that Italy and Sweden had suspended the import duties on all grain resulted in big additional increases of prices here. The market was also affected by a notable cutting down of the United States visible supply total.

Upwards of five cents a bushel had been added to wheat by noon. May selling then at \$1.57. Traders were taking a sharp eye on worldwide reports as to the United States visible supply total, which promised a big thing off.

TRAIN KILLED THREE.

(ASSOCIATED PRESS TELEGRAM)

Greenville, Pa., Feb. 1.—Loretta Grellie, a crossing watchman, today attempted to stop a sleigh in which Loretta Bar-till and Gaisippi Faroli were trying to pass in front of a fast train at New Gallie, near here. The sleigh was struck by the train and the three men instantly killed.

YOUR BOYS AND GIRLS

Treat your child more as an equal, whose obedience you require on reasonable grounds because you are older and know more than he does. Compel his obedience by showing him the bad results of his disobedience.

At the same time let his personality have play so that he may learn to do for himself as much as possible. Let him feel free, so long as he does right. Do not deprive him of a walk or outdoor air or make him study by way of punishment. That is to give him a distaste for study and a shut in system of correction is unhealthy. It is no cure for a nervous child to be so frightened that he trembles more from fear than from nerves, so avoid any sort of punishment that terrorizes him. Whipping is usually (not always) barbarous.

GRAY HAIR?

Look Old? Feel Ashamed? Hair Falling? Want Dark, Lustrous Hair?

When your hair turns gray, streaked with gray, faded, or prematurely gray or falling or thin, simply shampoo your hair and scalp with Q-Ban Hair Color Restorer. This treatment will quickly darken your hair evenly, beautifully and naturally that no one can detect you using anything, but you will look younger and more attractive. Q-Ban is a clear, clean liquid that can't injure your hair or scalp. It also has the effect of making your hair soft, glossy, fluffy, thick, giving it that soft dark lustre and abundance which makes the hair so fascinating and attractive. Stops dandruff and itching scalp and promotes an abundant growth of hair. Q-Ban is not sticky or messy and is certain to darken your hair. Money back if it fails. Only 50c for a big 7-oz. bottle at R. W. Smith, Newark, O. Out-of-town people supplied by mail.

Insects and tree disease annually cause \$50,000,000 damage in the United States.

It is absolute FOLLY for a man who intends to marry or who has a WIFE and CHILDREN directly dependent upon HIM not to save a part of his income from his earnings or his business.

A bank account is like a ball of snow: it will melt away unless you ADD to it. The habit of constantly INCREASING the balance to their credit will make any man or woman RICH.

Pittsburgh, Feb. 1.—Cattle: Receipts 180; steady; top 8.75; heavy 8.50; mixed 8.25; rough 8.00; pigs 7.50; calves 7.00; sheep 7.00; cows 7.00; steers 7.00.

Chicago Grain.
(Associated Press Telegram)
Chicago, Feb. 1.—Wheat: Buyers came after wheat today with a rush and quickly brought about new high record for prices. Foreigners were eager for both cash and future deliveries and it seemed as if nearly every commission house in the trade was attempting to fill orders to purchase. Liverpool dispatches said wheat was advancing there with a strong demand. In sharp contrast with this news, the influence of the market after opening 1 cent to 2 1/2 cents higher, scored a material further gain.

Corn was drawn upward with wheat, as being relatively cheap—hardly more than half cent, bushel for bushel. Rough weather had also a bullish effect. The opening, which varied from 1/4 cent to 1/2 cent higher, was followed by a general further advance. Export call furnished impetus to the oats trade. There was an unusually large volume of transactions, with prices steadily tending to harden. Provisions reflected the influence of the grain bulge. Weakness in the hog market was lost sight of.

New York Stock Exchange.
(Associated Press Telegram)
New York, Feb. 1.—United States Steel and Sears-Roebuck were features of interest during today's stock market session. Steel, on initial sale of 7,000 shares, sold off 1/8 to 3/8, and then advanced to 1 1/8. Sears-Roebuck, in recognition of its 25 per cent stock dividend, moved forward to 20 1/2, a gain of 1/2 point. Steel later recovered from its minimum on fairly large dealings to 2 1/8. Other active issues showed some irregularity. The market closed with Steel 1 1/8, Sears-Roebuck 20 1/2, and a general upward movement in the market.

THE SICK
Mrs. J. B. Brown of 55 East Main street, was removed from the City Hospital to her home, Sunday in the Barter & Bradley ambulance.

THE SICK
H. H. McConnell is confined to his home, 52 Smith street, with a sprained ankle and the grip.

soon reacting. Dealers were on a moderate scale. The entire list sold lower during the first hour but recovered later. Steel Common continued to hover a fraction over its minimum and the preferred shares, selling at 1 1/8, a point, showed a loss of 1/8 of a point. Canadian Pacific lost two points, with one point in the Northwest. Atchafalpa, New York Central and Missouri Pacific. Reading was the most active railway issue, rising and falling within a two-point range. Coppers were uniformly heavy and Bethlehem Steel also fell back, gains aside from those already mentioned, were mostly in unimportant specialties. Bonds were steady.

Obituary
William C. Vogelmeier died Sunday morning at 10:15 o'clock at his home in South Fourth street, after a short illness, aged fifty-six years and three months. His death comes as a great shock to his many friends, a number of whom were unaware of his illness as he was not around his home and brother's place of business a week ago Saturday.

Mr. Vogelmeier is survived by his mother and six brothers and three sisters, Henry, John, Charles, Frederick, Philip and Otto. Mrs. Caroline Trefftzer, his wife, and Miss Laura Vogelmeier, his daughter, died in August, 1911. Mr. Vogelmeier was a member of the 10th Men. Haymakers and Moose.

The funeral will be held Tuesday afternoon at 2 o'clock at St. Johns Evangelical church, corner Fifth and Poplar streets, interment at Cedar Hill.

William C. Vogelmeier's entire life was spent in this city where he was born November 18, 1858, to the union of William and Wilhelmina Vogelmeier, natives respectively of Prussia and Wurtemberg, Germany. When a boy Mr. Vogelmeier worked in his father's laundry, but at the age of eighteen commenced to learn the trade of a miller at the foundry of the Baltimore and Ohio railway company. Subsequently, after five years he was similarly employed in the Champion works at Sandusky, O.

Returning to Newark he was in the employ of the C. & W. for six years. In February, 1891, associated with his brother Fred, he embarked in the grocery and restaurant business which he carried on until a short time ago, discharging the same to his brother, Otto Vogelmeier. In 1892 Mr. Vogelmeier married Miss Elizabeth M. Springfield, O. and to this union four children were born, Clara and Helen, the former now Mrs. George Barlow.

In politics Mr. Vogelmeier was always a Democrat. He served as treasurer of Newark for two terms. He always kept himself well informed

on the issues of the day and manifested a great interest in the public welfare. He was a member of the German Lutheran church and socially was identified with the German Benevolent society.

Possessed of practical business talent and financial ability, he met with signal success and in all transactions displayed shrewdness and sound judgment.

Joseph W. Myers.

Following an illness with diabetes Joseph Wesley Myers died at his home in Columbus Saturday. He was 45 years of age. Mr. Myers formerly lived in Reynoldsburg but he has been a resident of Columbus for the past 20 years. Up to the time of his illness he was employed as a bookkeeper with the state industrial commission. He leaves a widow, one daughter, two brothers and his father Abraham Myers, of Reynoldsburg. The funeral services were held at 10 o'clock, and burial will be made at Reynoldsburg.

Joseph Sohn.

Joseph Sohn, age 29 years, died on Saturday afternoon at 2 o'clock at his home in Thornville after an illness of several weeks with typhoid fever. He is survived by his wife, his parents, Mr. and Mrs. Emil Sohn of Tenth street this city, and two sisters, Mrs. Paul May, of Pittsburgh and Mrs. Mandel Brashear of Newark.

The funeral services were held at 12 o'clock on Monday at the home in Thornville and the burial took place in Cedar Hill cemetery.

FRENCH REPORT SUCCESSSES OF THE ARTILLERY

(Associated Press Telegram)
Paris, Feb. 1.—The French war office this afternoon gave out an official report on the progress of the war which reads as follows:

"The day of January 31 was marked, as had been January 30, by artillery fighting, which was all particularly spirited in the northern region. To the southeast of Ypres, the Germans endeavored to attack our trenches to the north of the canal, but this movement was immediately checked by the combined fire of our artillery and infantry."

"Along the entire Aisne front, from the junction of this river with the Oise as far as Berry Aisne, our batteries were successful at certain points in demolishing trenches in course of construction as well as shelters for machine guns and in silencing several mine throwers as well as certain artillery detachments of the enemy."

"In Champagne, to the northeast of Meuse-Luxemburg, we perfected our organization in a little forest which we took possession of the day before yesterday."

"January 31 was relatively calm in the Arzonne, where the Germans seem to have suffered heavily in the recent fighting."

"There is nothing of interest to report from the fronts in the Woerwa districts, in Lorraine and in the Vosges."

THE SICK

Mrs. J. B. Brown of 55 East Main street, was removed from the City Hospital to her home, Sunday in the Barter & Bradley ambulance.

III With Pneumonia.
Miss Florence Martin is seriously ill at her home in 15 1/2 East Main street with pneumonia.

Is Seriously Ill.
Wallace Lydie of 197 South Second street is reported as being seriously ill with uraemic poisoning.

Missionary Meeting.
The missionary Society of North Franklin will meet with Mrs. Edgar Taylor, Thursday afternoon, Feb. 4.

Bus Line Resumes.
The Johnstown bus is now running on schedule time between Newark and the Monroe township Metropolis.

Birth Announcement.
Announcement is made of the birth of a son to Mr. and Mrs. Burt McCarty, at their home on R. D. No. 3.

Brought to Sanitarium.
James Haas of Gambier was brought to Newark Monday and taken to the Sanitarium where he underwent an operation.

Condition is Serious.
The condition of George Deedham who is ill at the home of his brother William Deedham in Ninth street is reported as being serious.

To Attend Convention.
Chas. E. Hollander will go to Chicago tonight to attend the National Independent Telephone convention. Mr. Hollander expects to be home next Saturday.

German Benevolent Society.
There will be a meeting of the German Benevolent Society at Vogelmeier hall, Tuesday afternoon at 1:00 o'clock to make arrangements to attend the funeral of W. C. Vogelmeier.

Called to Cambridge.
Mr. and Mrs. J. N. McDonald of 108 Elmwood avenue were called to Cambridge today, by the death of the latter's cousin, Mrs. John Bebout, who was well known in this city.

Taken to City Hospital.
Benjamin Barr, who has been suffering with inflammatory rheumatism, was removed from his home 88 Madison street to the City Hospital for treatment. Dr. H. H. Postle is the attending physician.

Lost Valuable Horse.
Wm. Connell, one of the oldest union teamsters in the city, lost another valuable horse the other day, the animal succumbing to colic. This makes the fourth horse that Mr. Connell has lost within the last eighteen months.

Embezzlement is Charged.
Charged with embezzlement of \$10 from Charles Mauger, fish dealer, Burt Hitchcock, an employee was arraigned before Mayor Bigbee Monday. He entered a plea of not guilty and the hearing was set for 2 o'clock Tuesday afternoon.

Went From Newark.
Patrick Ryan, 47 and Albert Hart, were arrested at Coshocton by Pennsylvania Detective Doney on a charge of train riding. Ryan suffered a dislocated jaw when he fell from the train. Both the men had cards from the Newark bricklayers union. Eight of their companions escaped.

Governor is Honored.
Governor Willis has been made a life member of the Old Guard of Newark Saturday he received a certificate of membership from the vets comprising that organization, who marched in his inaugural parade. The organization turned out with the Old Guard of Columbus for the parade.—Columbus Dispatch.

To Direct Music.
Prof. D. E. McGregor of Chancellersville, O., will conduct the music during the revival which is to start at Johnstown shortly and which will be held at the church of which Rev. Wm. T. Kinney is pastor. Prof. McGregor has had charge of the music at a number of meetings during the present winter.

Hospital Meeting Tonight.
A meeting of the Newark Hospital Association will be held at 7 o'clock tonight at Taylor Hall, Y. M. C. A. building for the purpose of electing twelve trustees and a board of managers consisting of 15 women. A report on the construction of the new hospital will be presented.

Moves in Masonic Temple.
Dr. E. V. Prior, has moved from his former location 27 1/2 West Main street to the Masonic Temple. Dr. Prior has room 1 and 2, on the second floor of the building and they face on both Church and Fourth streets. The rooms are cleverly furnished, being in fumed oak and leather and the doctor has installed complete and up to date new electrical apparatus.

COUNTY UNION HELD MEETING IN NEWARK.
The bimonthly meeting of the disciples of Christ of Licking county was held last Saturday in the Central Church of Christ this city.

The various churches were well represented by delegates who made most excellent reports.

Rev. Chas. E. Taylor of Salem, who has been conducting revival meetings at the Old Stone church, in Hanover township, was a guest.

O. C. Larson is president of the union. Miss Nellie Wigan of York street, secretary, and Mrs. Rose Wilson, Newark, treasurer.

The next meeting will be held in this city the last Saturday of March.

Loses Baby, Woman Swallows Poison; Death May Follow

Zanesville, Feb. 1.—Despondent because of having been separated from her husband, and also over the death of her little baby only two weeks ago, Mrs. Raymond Yinger, aged 23, swallowed poison at noon yesterday in her room, and physicians state she will die.

Grand Duchess Marie Adelaide, ruler of the independent nation of Luxemburg, is only 20 years old.

In a famous German animal park there have been erected life size models of the huge beasts of prehistoric times.

Stops Headache, Pain, Neuralgia

You can clear your head and relieve a dull, splitting or violent throbbing headache in a moment with a Dr. James' Headache Powder. This old-time headache relief acts almost magically. Send one to the drug store now for a dime package and a few moments after you take a powder you will wonder what became of the headache, neuralgia and pain. Stop suffering—it's needless. Be sure you get what you ask for.

SUGGESTED

The Chicago Tribune, had been so disciplined some years ago. The commissioner then asked the witness if he knew of any public record of such a bylaw. To this, Mr. Pinchot replied that last year Clarence Shearn, in filing a complaint against the Associated Press in behalf of the New York Sun, had included the alleged bylaw in the papers.

The witness said that he himself had a copy of the bylaw. After being asked by the commissioner to produce it he was excused without further questioning.

STOPS HEADACHE, PAIN, NEURALGIA

You can clear your head and relieve a dull, splitting or violent throbbing headache in a moment with a Dr. James' Headache Powder. This old-time headache relief acts almost magically. Send one to the drug store now for a dime package and a few moments after you take a powder you will wonder what became of the headache, neuralgia and pain. Stop suffering—it's needless. Be sure you get what you ask for.

DANGER

(Continued from Page 1.)
The rain continued to fall at intervals all day Sunday, and kept it up Monday. A fog also settled over the city this morning and did not lift during the day, which is an indication that there will be a heavy one tonight. With continued rain and the melting of the snow and ice there is danger of an overflow of the creeks and river. At 2 o'clock this afternoon the water was within six inches of the top of the river bed and indications are that it will overflow before tomorrow noon. Creeks over the county are reported bank full and farmers are fearful of another flood similar to the one of two years ago.

AT EAST LIVERPOOL.
(ASSOCIATED PRESS TELEGRAM)
East Liverpool, O., Feb. 1.—The Ohio river is rising at the rate of two tenths of a foot an hour with the stage nine feet. Rivermen are anticipating a flood as a result of continued rain during the past 24 hours.

WILL PASS DANGER LINE.
(ASSOCIATED PRESS TELEGRAM)
Gallipolis, O., Feb. 1.—The Ohio and Great Kanawha rivers are rising rapidly as a result of snow in the Ohio valley going off with heavy rains. The danger line of 39 feet, it is probable, will be passed at the mouth of the Great Kanawha at Point Pleasant, near here by Wednesday.

STREAMS SWOLLEN IN PENNSYLVANIA.
(ASSOCIATED PRESS TELEGRAM)
Pittsburgh Pa. Feb. 1.—A warm rain which began yesterday, has melted the snow on the Allegheny and Monongahela water sheds and small streams throughout western Pennsylvania and northern West Virginia are pouring volumes of water into those rivers. The Ohio is rising here at the rate of seven inches an hour but no flood warnings for down river points has been issued by the weather bureau. Two men were drowned in flooded Loyal Hanna creek at Latrobe, Pa., and Mrs. Michael Fisher was drowned at West Wheeling, W. Va., when she fell into the swollen waters of Doggs Run.

Compton Signed As Dayton Manager Well Known Here

Dayton, O., Feb. 1.—Pitcher Jack Compton yesterday signed a contract to manage the Dayton club of the Central League. He did so after a short conference with President Elmer Redelle.

He resigned recently to go into business. Compton has been with the Dayton club for five years. He was drafted by the Cincinnati National League team in 1911, but was turned over to Louisville, American Association, before the start of the season, and eventually drifted back to Dayton.

Compton is well known to Newark baseball fans, having played here many times in the days of the old Ohio State and Ohio-Penn. Leagues.

Insects in Flight.
Motion pictures of insects in flight show that they regulate their speed by changing the inclination of their wings rather than by altering the rapidity of their motion.

Unpleasant.
"The man who tells us of our faults is our best friend," quoth the philosopher.

"Yes, but he won't be long," added the mere man.—Judge.

Perhaps it is.
"If you want a thing well done"—
"Get an expert to do it for you. Ain't that more sense than what you were going to say?"

At the Greene (Me.) fair William Bailey, aged 8, exhibited a pair of young steers which he had brought up and broken.

The sinews of the kangaroo are especially desirable for use in surgery, for sewing wounds and binding broken bones together.

Grand Duchess Marie Adelaide, ruler of the independent nation of Luxemburg, is only 20 years old.

In a famous German animal park there have been erected life size models of the huge beasts of prehistoric times.

Scientific Farming

RESTORING ABUSED LAND.

So Called Worn Out Soil May Be rejuvenated by Legumes.

People are always talking about "worn out land," says Edwin C. Johnson in the Farm Progress. This is wrong. Land does not "wear out." It may become exhausted, in so far as some of the plant food elements in it are concerned, but even the old clay hills abused by bad methods are not "worn out." When we refer to land in such terms we simply mean that it has been overcropped, usually in some one crop.

This one crop is usually corn, though it may be wheat in some states, where wheat is the main reliance. When one crop is planted over and over for years at a stretch the soil stuff that goes into the growing of that crop is pretty well used up. What that land needs is a rotation that will

SOY BEANS ARE AN EXCELLENT LEGUME.

give the soil a chance to conserve those elements that are used so heavily by that one crop.

The corn belt lands are not "worn out" or exhausted as yet, but they will be if in the course of time the owners do not diversify more.

There is a simple way of keeping land from wearing out. It combines crop rotation, the use of stable manure and the utilization of legumes. If enough legumes were grown there would never be any talk of "worn out land." Land is kept well up to its original fertility by the same use of legumes. Soy beans, cowpeas, clover, alfalfa and sweet clover are the best known of these valuable plants.

Valuable as they are legumes will not provide all the elements that have been taken from the weakened soil by continuous growing of a single crop. Phosphoric acid, nitrogen and potash are the most used elements in the soil.

When a soil gets "tired" or "worn out" or exhausted it means that some one of these elements—maybe all of them—is lacking in that field. Where the potash is missing that will have to be bought in the form of commercial fertilizer. The same is true of phosphoric acid. But as a rule, it is the nitrogen that is causing the trouble.

That is where the legumes come in. They are nature's own nitrogen gatherers, all of them. Where the land seems exhausted try some one of the legumes. Alfalfa, cowpeas or soy beans, clovers or any of the others will do. All of them have the power of pulling nitrogen out of the air, and the supply in the atmosphere is inexhaustible. In Germany and in Japan the scientists are using heating and electrical methods to get this chemical out of the air, but the legumes will serve our purposes even better.

The little nodules on the roots and the little whitish tubercles that stud the roots will soon supply enough of the missing soil stuff to bring the dirt pretty well back to its old fertility. Every man, no matter where he is farming or what he is growing, ought to establish a crop rotation scheme that would put some legume on his fields once in every three years and if possible once in every two years. By using the cowpeas in rotation he can put them into corn after it is laid by or sow them on the wheat ground after the crop is cut.

They may then be turned under as a green manure crop, or if in the corn they can be used as a lamb or hog pasture. Whether they are turned under or not, they will help break up and pulverize the soil as the roots will strike down into the subsoil, and after they rot they will add humus or organic matter to the dirt. This will prevent the earth from drying out so rapidly in times of little rain.

Ale's Versus Timothy.
In one ton of alfalfa hay there are 1,044 pounds of digestible nutrients, of which 220 pounds are digestible protein. In one ton of timothy hay there are 926 pounds of digestible nutrients, of which fifty-six pounds are digestible protein. The nutrients in the timothy hay are furnished a little cheaper than in the alfalfa, but the protein in the alfalfa is far cheaper than in the timothy. As a dairy feed alfalfa hay would be cheaper at \$26 per ton than timothy at \$29.

Nearly 400 women applied for patents in England last year.

Horticultural Outlook in Ohio; Work of Ohio State University In Connection With Its Development

(Special to The Advocate)
Columbus, Feb. 1.—Few people realize the wonderful opportunities for horticultural development in Ohio. Here we have the climate, soil, proximity to the best markets and excellent transportation facilities. The lay of the land is all that could be desired; in the northern part it is level enough to be easily tilled and the lake tempers the climate.

The courses of study are so arranged as to give the students the very best possible training along practical lines of work. For the study of pomology, the students have advantage of a large cold storage where fruits may be held and studied any length of time. Also a spray laboratory where the commercial sprays can be made and studied.

HORTICULTURAL BUILDING AT O. S. U.

They are given instruction and can demonstrate the various kinds of packings for fruit as well as work in pruning and spraying.

In the vegetable gardening course, the student has advantage of the University gardens and greenhouses. This gives a chance to become familiar with the laying out of the ground, preparation of the seed-bed, planting, cultivating, irrigating, harvesting, and marketing, both when conditions are under control and when not.

The demand for Landscape Gardening is far beyond the supply, consequently there are excellent opportunities for those having special ability along these lines. This course is greatly augmented by the large campus which is adorned with many trees and shrubs and is used as illustrative material.

As will be noticed from the census figures the growing of flowers has become a very extensive and profitable business. The course in floriculture is especially planned to meet this need. One of the greenhouses will be entirely devoted to the study of flowers and their culture.

The horticultural courses are broadening as a knowledge of plants themselves, together with the understanding of their requirements for successful growth, presents an unlimited field for study.

The department is willing to answer any inquiries that may come to it concerning horticulture work, or the courses of studies.

N. R. ELLIOTT,
Ohio State College of Agr.

Value of apples produced
in Ohio \$ 2,970,000
Value of small fruits 1,300,300
Value of peaches 1,349,000
Value of nursery products 860,000
Value of flowers 2,384,300
Value of vegetables 11,203,000

\$20,256,000 annual income to this state represents a small portion of what it might be and will be when more scientific and intensive methods are employed. But it has come to the stage where one must have special training in order to cope with the many problems that present themselves.

Ohio State University has felt this awakening to our horticulture possibilities and is making every effort to give the necessary training to our young people, so that they may be able to meet the ever increasing demand for specialists along these lines.

A Horticulture of Forestry building has just been completed, and is now occupied by these departments. This building is 250 feet long and

60 feet wide, and contains approximately one acre of floor space.

mate; in the southern portion it is rolling enough to give excellent air drainage.

This diversity of climate and topography gives a sufficient range for the successful cultivation of orchard and vegetable crops. But a glance at the statistics of the last census shows that Ohio is not producing as it should, in fact we are not producing fruits and vegetables now we did in 1890.

Bond Issue Proposed For Light Plant

Council Hears Electrical Expert's Opinion as to Advisability of the City Owning and Operating a Municipal System or Buying the Current from a Private Corporation, Which Submits Contract With Tentative Prices

COUNCILMEN APPEAR TO BE UNDECIDED AS TO COURSE

And Have Decided to Call a Mass Meeting of Citizens to Get the Public Sentiment On Subject—W. C. Seward Refuses a Committee Appointment, for Reasons, He Says, Best Known to Himself—There Are Two Factions in the Council As to the Light Plant Question—Electrical Engineer's Report in Full.

Declaring that the members of the council are anxious to secure from the citizens of Newark, an expression of opinion regarding the municipal light plant proposition, a motion was adopted at Monday night's meeting of council, to call a mass meeting when the matter will be discussed by citizens and councilmen. To this meeting will be invited business men and representatives of every lodge, society, union and organization in the city. The meeting will be held Wednesday evening, February 10, at 7:30 o'clock in the council chamber, unless it is found that the meeting will be so largely attended that larger quarters are necessary.

This decision of council was reached after a discussion by members of the situation as it exists. Councilmen Adams, Seward, Ashbrook, Payne and Knauber took part in the discussion while Councilman Rexroth, who has been leading the forces opposed to the municipal plant, and Councilmen Legge, Keys and Baker remained silent.

Two reports were filed with council regarding the light plant. Engineer H. F. Hittner of Mt. Vernon submitted his report to council, giving estimates of cost of refitting the light plant and operating it in conjunction with the municipal water plant north of the city. His report declared that conditions were favorable to the economical operation of the light plant if it is united with the water plant. He gave estimates of cost of several different styles of equipment.

The Ohio Light and Power company submitted another tentative contract which amounted to a proposition to furnish current to the city at a cost of one and one-tenth cents per kilowatt hour. Their former proposition fixed the price of 1 3/4 cents per kilowatt hour.

Mr. Hittner's report estimated that the current could be produced at a cost of .0108 cents per kilowatt hour while Service Director Christian, in his estimate submitted several weeks ago declared that it could be manufactured for 8-10 of a cent. He further stated that it was his belief that his price could be trimmed to 7-10 of a cent as he had allowed a wide margin in his estimates, so that none would be too low.

Councilman Seward declared, when his ordinance to issue bonds came up for the third reading, that he had no desire to take advantage of the citizens and moved that the bill be laid on the table until the next meeting. In his remarks he said that he was elected to serve no particular people or clique but to serve all the people of the city to the best of his knowledge. His motion to delay action on the bill was carried.

A hint that all was not smooth in the running of council by the eight

Republican members was given when Clerk Woodward read Councilman Seward's resignation as chairman and member of the law committee to which he was appointed the first meeting in January. In stating his reason for resigning Mr. Seward declared that the old committee had left a lot of unfinished business and that he did not care to step into any one's shoes and do the work they had neglected to do. Up to the first of this year, Mr. Seward was chairman of the public service committee and has been active in boosting the bond issue for the light plant. When the committees were changed early in January, Mr. Seward was removed from this committee and H. L. Rexroth of the Sixth ward, who had led the opposition to the bond issue, was named in his stead.

President Keller from the chair, and Member Payne urged Mr. Seward to reconsider his action, but this Mr. Seward refused to do. He said that he had other reasons, "better known to myself," and that if he was left on the committee he would refuse to serve.

"We can't put a halter on him, and lead him up and make him serve," said Mr. Payne.

"No man has ever been able to do that yet," retorted Mr. Seward. His resignation was accepted on Mr. Payne's motion and Mr. Ashbrook's second.

The finance committee reported the opening of bid for two bond issues, one for \$58,550 for street improvements and one for \$12,000 for fire equipment. A resolution adopted later awarded the first issue to Spitzer, Rorick & Co., of Toledo, on their bid of \$1,212 and the second to Seagood Mayer & Co., of Cincinnati on their bid of \$132.

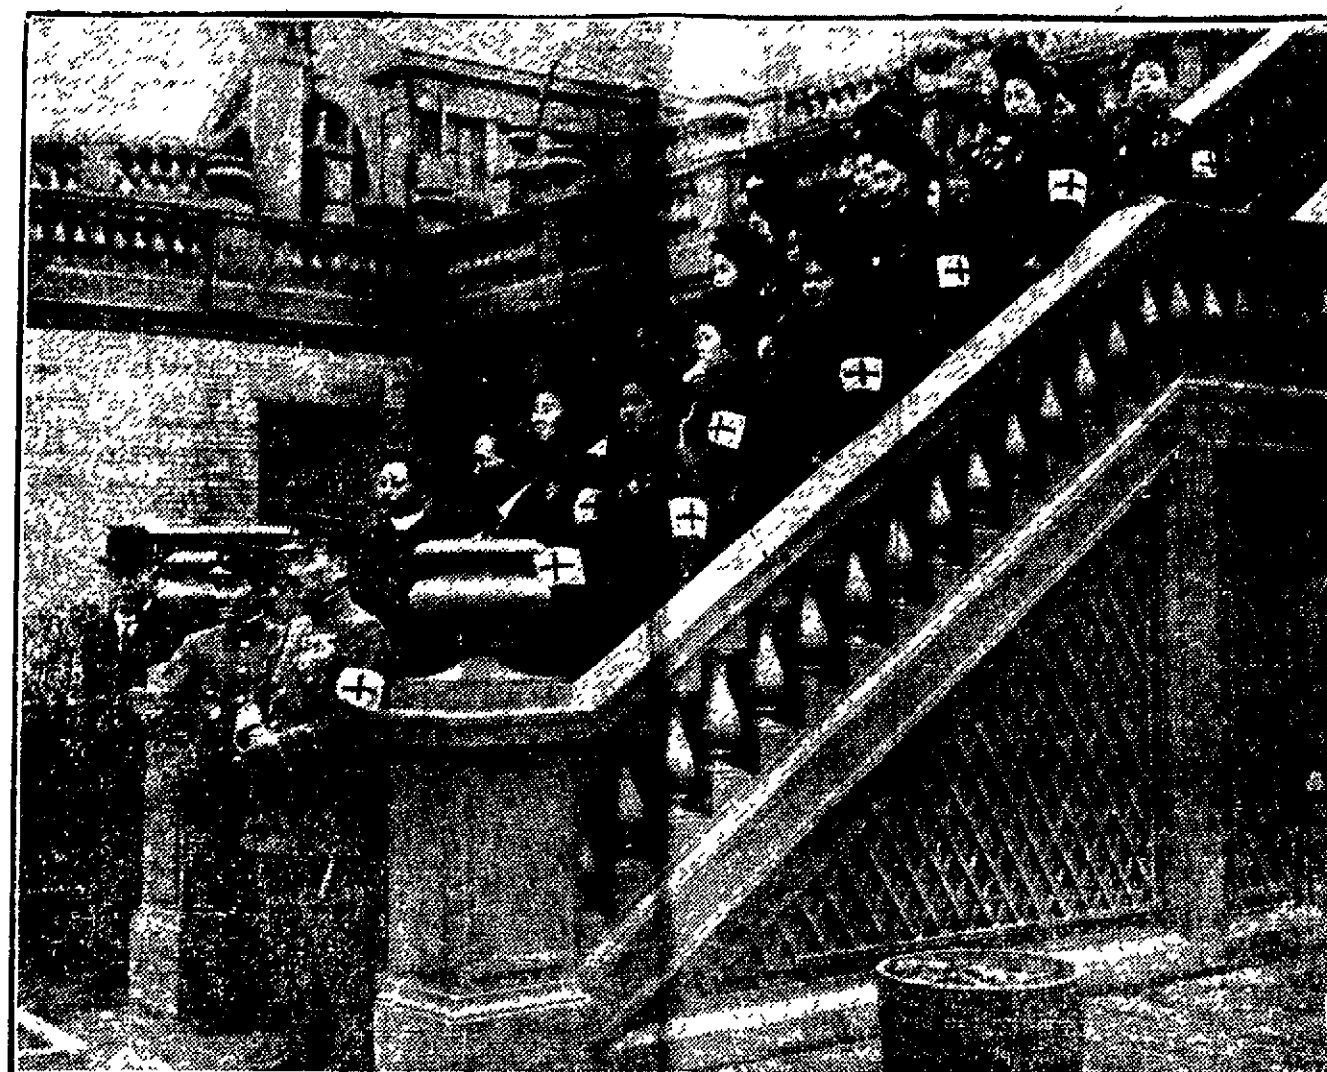

Mayor Bigbee submitted his monthly report showing the following collections:

City cases:	
Fines	\$ 59.00
Licenses	170.00
Other collections	43.00
State cases:	
Fines collected	\$ 80.50
Mayor's fees	38.00
Officers' fees	19.00

City Auditor Dodd submitted his annual report in printed form, each councilman and city official being presented with a copy. This report was received and filed.

City Solicitor Norpell submitted as a report from his department a letter from the engineers for the railroads stating that the city's draft of the proposed subway construction contract could not be checked over by the railroads' representatives in time to meet with the city officials and engineers February 1. The letter stated that as soon as the railroad officials (Continued on Page 2, Col. 1.)

The Japanese Red Cross contingent, bent on a mission of mercy that will carry it half way around the globe. The expedition is headed by Dr. Jiro Suzuki (man at right in first row) chief of the Japanese Red Cross Association. The nurses are the pick of the medical corps of the Japanese army, and all have been decorated by the Mikado for bravery and efficiency on the field of battle.

Man Claiming to be German Officer, Arrested for Dynamiting a Bridge Between United States and Canada

(ASSOCIATED PRESS TELEGRAM) VANCEBORO, Maine, Feb. 2.—An attempt to destroy the railroad bridge spanning the St. Croix river, which forms the international boundary line between Eastern Maine and New Brunswick, was made early today. One of the three spans of the structure was blown up by dynamite. The attack on the bridge caused great excitement on the New Brunswick side, where rumors of a German plot spread rapidly and resulted in an immediate investigation by the provincial authorities.

Inquiry was also begun on this side and this led to the arrest at a local hotel of a man who gave his name as Werner Van Horne. According to the police, the prisoner said he was an official in the service of Germany, but refused to divulge his rank. The police assert that he admitted that he exploded the dynamite under a section of the bridge and that a dynamite cap and a plan of the bridge were found in his pockets.

Van Horne, according to the police described himself as 37 years old. He is five feet, 11 inches in height and weighs about 200 pounds. He is smooth shaven.

The arrest was made by deputy sheriff George W. Ross, who was accompanied by a Maine Central railroad detective and two Canadian officers from McAdam Junction, New Brunswick.

He was removed to the United States immigration rooms where he was closely guarded.

When taken into custody at his room in the hotel, Van Horne made no resistance, but is alleged to have told the officers the circumstances of the dynamiting. He seemed unable to speak very good English. No papers were found to identify him. In a coat pocket he carried a German flag. Asked why he dynamited the bridge, the prisoner, the police say, made the simple explanation that his country was at war with Great Britain and that Canada was a part of the enemy's country. He said, according to the officers that he came from New York, having left that city on Friday night and arrived here Saturday.

Immediately after discharging the explosive he returned to the hotel. As evidence of his experience he displayed a frost bitten thumb. His clothing had been encrusted with ice and was soaked through.

Railroad officials, after a careful examination of the bridge, declared that the explosion had been a failure as far as damage was concerned. Sleepers were blown out, the rails were twisted and a girder was damaged, but repairs can be made within a day.

Van Horne was made a prisoner of the state of Maine. To avoid possible complications the local authorities made no further move pending advice from the federal government.

The Canadian authorities indicated that they would immediately make representations at Washington with a view to extraditing on the ground that the dynamiting had been done on the Canadian side. On the other hand, it was said that Van Horne would be defended against extradition, basing his claim for the protection of the United States on his assertion that he had committed an act of war and that his offense was political.

EXTRADITION WILL DEPEND UPON THE WORD "POLITICAL."

(ASSOCIATED PRESS TELEGRAM) Washington, Feb. 2.—Whether the man who damaged the Canadian Pacific bridge across the Saint Croix river at Vanceboro, Me., may be extradited to Canada, depends largely on the interpretation of the word "political," in the extradition treaty of 1889, which declares "a fugitive criminal shall not be surrendered if the offense in respect of which his surrender is demanded, be one of a political character."

No request had come to the state department today in the case and officials were unwilling to express an opinion pending the receipt of further particulars.

(ASSOCIATED PRESS TELEGRAM) Washington, Feb. 2.—The groundhog has no chance to see his shadow anywhere in the East when he comes out today, and, according to tradition that means six weeks of bright days to follow. The weather bureau's official prediction today says: "The indications are that there will be snow and sleet in the north Atlantic states and the South portion of the region of the great lakes, rain and snow in the Ohio valley and rain in the middle Atlantic states during the next 24 hours."

"Storm warnings are displayed on the Atlantic coast from Portland, Maine to the Virginia Capes."

A VALUABLE SUGGESTION

IMPORTANT TO EVERYONE

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich, heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, annoying bladder troubles, smarting or burning, brick-dust or sediment, sallow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

Many physicians claim that an herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention The Newark Daily Advocate.

BOND ISSUE

(Continued from Page 1.)

were ready to confer with the city, the solicitor would be advised by letter.

The annual report of the sinking fund trustees was submitted and was received and filed. Council Clerk Woodward reported that he had \$50.75 of the cemetery endowment fund in his hands and asked instructions as to its disposition. He was instructed by resolution adopted later, to invest the sum in satisfactory securities.

Another report from Clerk Woodward reported the employment of H. F. Hittner of Mt. Vernon as an expert electrical engineer to go over the light plant proposition. In connection with this report was a letter from H. G. Slinguff, manager of the Pittsburgh Plate Glass company's plant at Mt. Vernon in which he declared that Mr. Hittner was qualified for the work he was engaged to do.

Mr. Slinguff stated that Mr. Hittner had spent his life in the electrical business, and as electrical engineer for his company, had designed and installed many electrical devices, that he had installed and operated two electric lighting plants in Pennsylvania. He said Mr. Hittner had been an employee of the Pittsburgh Plate Glass company for seven years.

Clerk Woodward then read Engineer Hittner's report which is given here with in full:

The conditions at the City Water Pumping Station are very favorable for the economical generating of electricity for the street lighting of the city.

First, the ample water supply furnishes ideal conditions for condensing water.

Second, the labor required with this additional equipment will not increase the labor cost of operating the pumping installation alone.

Third, the building is large enough to accommodate the addition of the electric generating system without expensive additions.

These three conditions allow a lower cost of production than is usually possible with a comparatively small plant, and a much lower cost than if electric plant were operating alone.

I have been requested to give facts regarding the production of electricity for light and power for private consumers. It may be surprising to know the amount of information and data necessary to calculate the cost of supplying power, also the capitalization required to build such plants. Unless the amount of electricity the city would be able to sell after plant was completed was properly calculated, and the proper balance obtained between private lighting and power customers, the number of K. W. H. per month would be too low to earn profit on investment.

It has often happened, both with municipal and private plants supplying electric light and power for private consumers, that profit could not be obtained in spite of the fact that for about three hours per day there was sufficient business to make full load for plant, as to first cost, reliability and com-

Mass Meeting of Citizens Suggested To Consider Electric Light Question; Expressions of Members of Council

Mr. Adams—"From what I have gathered in our investigation of the light plant question, the public is not informed on what we want to do. Not one in 25 persons really understands the situation. The reports submitted here tonight are a surprise and yet they are close to what I anticipated. I suggest a meeting of business men and members of local organizations, with council, so this body can get expressions from the people as to what they think about the matter. Such meetings should be held every six months."

Mr. Seward—"While I concur in what Mr. Adams has suggested regarding the public meeting to consider the light plant matter, I feel that there is no need for any misunderstanding. Several months ago the service committee was authorized to bring in a report on the light plant matter. This was done. The report was discussed. The committee brought in the second report. The trouble is the people haven't tried to understand it. The newspapers have failed to comment on the matter until the last minute. Saturday being the first time that there has been an expression from them. They had ample time to say something but failed to do it. I want all the people to know where we stand. We have had figures to show that the present plant has been profitable to the city, and that the proposed new plant would continue to save the city money. We have had no figures to the contrary. Every citizen knows that there have been times when the street lights were not burning and they know the reason. They know that something must be done. I hope this proposed meeting will be largely attended."

Mr. Ashbrook—"The proposed light plant bond issue is a different proposition from the subway issue, because the people were given an opportunity to voice their sentiments on the latter. In this matter, it is up to council but the taxpayers must pay the bill. I want to know whether it is cheaper to replace the plant or buy the current. I want an expression from the public."

Mr. Knauber—"If we make a contract to buy current, we will have to do so without funds. There is no appropriation for that purpose and there has been no levy. This council can not secure money for purchase of current until after the next budget is made up and money secured for that purpose."

Mr. Payne—"If we can buy power cheaper than we can manufacture it, I am opposed to the bond issue. If we can manufacture it cheaper than we can buy it I am favorable to the bond issue. It is well to get an expression of the people. If you can show me that the current can be manufactured at a lower price than it can be bought, I'll vote for the bond issue."

Councilman Baker, Keys, Legge and Rexroth sat silent during the discussion of the matter.

the remaining twenty-one hours the load being very light. The number of K. W. H. sold per month under such conditions was only, therefore, about one-fourth as compared with the investment of a street lighting plant. It may appear easy to so arrange rates and make special efforts to get customers, using electricity such hours as would give an even load on plant, yet only a fair percentage of the electric supply plants in operation are able to keep their average load high, and it has been through years of study and specializing that this has been systematized.

To obtain proper economy in the building of distribution system, it is necessary for an expert in this particular line to design the system and drum up the business. The old-fashioned method of running the electric supply lines and connecting up customers only as they request it brings about a poor load factor and proves disastrous to profit.

Even under the best condition of design and operation, the investment in plant for private customers can not be otherwise than high compared with a street lighting power plant. Two 1,000 K. W. generating sets would be required, a considerable increase to building and the distribution system requiring new pole line work, cables, transformers, etc., will total a rather high price per horse power.

I believe it is plain to the council that to obtain even an approximate figure for which electricity could be sold for a twenty-four hour service, it would be necessary to collect much information regarding the amount of power which could be obtained, the power factor of load for the twenty-four hours and cost of distribution system. The cost of the electric power plant alone would be about \$110,000. This would include capacity for street lighting. The load factor is the difficult figure to obtain and upon this depends the price at which electricity can be sold. I wish to make the matter plain that it is possible to manufacture electricity for private consumers at a low price and at a profit, but it would take months of work to collect the information to calculate the cost per K. W. H. for which it could be supplied. A three-phase primary line can be added to the pole line estimated on. For street lighting and for certain requirements could be used to advantage for multiple lighting or power purposes.

For special service a motor driven turbine water pump, if such is desired, can be supplied from electric system with considerable advantage business to make full load for plant, as to first cost, reliability and com-

paratively good efficiency. With these points in view I have specified three-phase, which has the advantage of being the modern standard current.

Figures are also given on both High Pressure Steam Turbine and Uniflow Condensing Direct-Connected Engine. Each has its advantages, both are reliable.

The new types of gas engines of from 400 to 500 horsepower are as reliable as any steam driven units and if the supply of natural gas is reliable, this should be given due consideration, as the fuel efficiency is higher than the steam engine or turbine of this size, and the cost is about the same.

A fair estimate has been made for installation costs and with good management they will come within the figures given. If good fuel efficiency is to be obtained it must be understood that good engineering skill and practical business methods are to be employed both in building and operating. Otherwise the cost of coal may run considerably above figures given. This accounts for the difference in coal consumption in plants that are in other ways the same. Everyone should be familiar with this fact, but it is seldom given due consideration in making comparisons.

The following figures are submitted for council's consideration:

New Equipment—Cost of Installation.	
Two 250 H. P. Water Tube Boilers, Feed Pump, Steam and Water Piping, Etc.,	\$ 6,500.00
One 100 H. P. Uniflow Engine	7,100.00
One 250 K. W. A. Direct Connected 3-Phase, 60 Cycle, 2200 Volt, Revolving Field Type Generator	4,000.00
One Condenser & Auxiliaries	1,200.00
Transfer of switchboard to new plant, change to 3-phase connections, & cable work to make the transmission lines to center of distribution with switchboard and lightning arrester equipment	2,400.00
Incidentals	1,500.00
Total	\$26,100.00
New Equipment—Cost of Installation.	
Two 250 H. P. Water Tube Boilers, Feed Pump, Steam and Water Piping, Etc.,	\$ 6,500.00
One 200 K. W. High Pressure Turbine Generator, with cables and discharge connections, rated at 100 per cent power factor, 60 cycle, 2200 volts, 3-phase	12,500.00
One Condenser & Auxiliaries	1,200.00
Transfer of switchboard to new plant, change to 3-phase connections and cable work for are transformers, Etc.	600.00
Electrical Transmission Lines, Center of Distribution, With Switching and Lightning Arrester Equipment	2,400.00
Incidentals	1,500.00
Total	\$26,100.00

OBERLIN LOST TO DENISON; SCORE 36-30

Granville, Feb. 2.—Running, whirling and shooting, the two leading contenders for the Ohio collegiate title last night played 40 minutes of the fastest basket ball ever seen here. Denison beat Oberlin 36 to 30. Oberlin displayed excellent pass work, but Denison was far more wonderful. However, Oberlin players availed themselves of their opportunities to shoot better than did Denison. Long shots featured the play. Throughout the contest the large crowd was in a frenzy. Denison led at the halfway mark 20 to 13.

McPhee started the scoring by making good on two fouls for Oberlin. Biggs goal for Denison. Oberlin scored on a shot by Edwards. Jones tossed a foul for Denison. Edwards put Oberlin ahead with a basket. Jones threw a foul. With a fine show of team-work Reese took the ball on the bat-off and scored a basket. This made the score 6-6.

Denison counted one on Jones' foul shot. Giauque goal. A sensational shot from mid-floor by Biggs put Denison ahead. McPhee threw a foul and tied the score at 9. Oberlin counted two on DeGroff's goal. Reese goal for Denison. DeGroff was replaced by Kalbfleisch of Oberlin. Reese goal for the home quintet. Jones made goal on the lay-up. Reese dribbled and shot true. Biggs added a basket. Edwards goal from under the basket. Roubush counted, and the half ended with Denison, 20; Oberlin, 13.

Oberlin opened the second half by scoring on McPhee's foul shot. Biggs of Denison was taken out, having made four personal fouls. Ladd replaced him. McPhee threw a foul. Reese basketed. Curtis shot a long goal. Jones and McPhee each threw a foul. The score stood 23 to 18 for Denison and the crowd yelled itself hoarse.

Oberlin counted on a fine basket shot by Edwards. Thiele counted Giauque and shot two baskets successively. Jones and McPhee each got a foul. McPhee shoved another foul through the basket. Giauque goal from mid-floor, making the score Denison, 28; Oberlin, 26.

Pandemonium reigned. Oberlin crept a point nearer when McPhee threw a foul. Thiele goal. Denison outwitted Oberlin by a brilliant bit of pass work and Thiele goal. Jones threw a foul and Roubush made a basket.

In a last desperate effort, Oberlin counted a basket on Giauque's throw. This was the crisis. Oberlin crumbled and Denison kept fighting on. Jones shot three fouls and McPhee closed the scoring by caging a foul.

Team-work enabled Denison to take the victory. Often the Livingston five passed the ball cleanly about their opponents. Oberlin seemed to hit the basket better, but did not have enough chances. Thiele got the jump on Giauque most of the time. Lineup: Denison, 36. Oberlin, 30.

Roubush DeGroff, Kalbfleisch
Biggs, Ladd McPhee
Thiele Giauque
Reese L. G.
Curtis
Jones, (C) Edwards, (C.)

Field goals — Denison: Roubush, 2; Biggs, 3; Thiele, 4; Reese, 5; Oberlin: Giauque, 3; DeGroff, Curtis, 3; Edwards, 4. Foul goals—Denison: Jones, 10. Oberlin: McPhee, 10. Umpire: Mr. Collins. Wooster, Referee, Mr. Reilly, Ohio State. Time of halves—20 minutes.

Dr. Osler on Tuberculosis

Sir William Osler, one of the foremost of British medical men, formerly of Johns Hopkins, Baltimore, and now Regius Professor of Medicine at Oxford, says in his "Lectures on Medicine" (1912), on page 259:

"The healing of pulmonary tuberculosis is shown clinically by the recovery of patients whose acute febrile stage and bacilli have been found. In the granulation process and necrosis and the formation of a scar tissue is formed, while the smaller caseous areas become incorporated with the scar. The conditions alone should the term healing be applied."

Many eminent medical authorities have testified to the efficacy of lime salts in the treatment of tuberculosis, and the success of Eckman's Alternative in this and allied throat and bronchial affections may be due partly to the fact that it contains a lime salt so combined with other valuable ingredients as to be easily assimilated.

Widespread use of this remedy in numerous cases of tuberculosis—many of which appear to have yielded completely to its action—has led to the belief that it is worth a trial, unless some other treatment already is succeeding. It contains no opiates, no narcotics or other harmful drugs. We make no promises concerning it, any more than reputable physicians give promises with their prescriptions, but we know of many cases in which it has helped.

Your druggist has it or can get it, or you can send direct. Eckman Laboratory, Philadelphia.

Smith Wins From Flynn By Decision of Newspaper Men

Cincinnati, Feb. 2.—Gunboat Smith won a newspaper decision here last night over Jim Flynn in a 10-round contest. There was never a time during the bout that Smith did not have a shade the better of the argument on points, but the stamina displayed by Flynn won the admiration of the audience.

Flynn could be called the aggressor, inasmuch as he used boring in tactics and, while he received four blows to every one he delivered, he was in good condition when the contest ended.

All the rounds were practically identical, with Flynn boring in wherever he had a chance, and Smith doing damage with a left jab and a right across to the jaw whenever any open work was possible.

In the clinches Flynn showed at his best, but even in this style he was no match for Smith, who worked a terrific uppercut to good advantage and sent Flynn's head back in the first, fourth and seventh rounds.

At open work Flynn hardly struck a blow. Smith's long reach enabling the latter to send in jab after jab to the face without a return.

In the opening round Smith brought the audience to its feet with a clean right on Flynn's jaw. Flynn staggered for a moment and clinched, but thereafter showed no ill effects, despite the fact that he took terrific punishment on numerous occasions.

The government of the Bahama Islands is trying to revive the production of sea island cotton, once a flourishing industry there.

Bowling

"Der Kaisers" Tigers won two out of three games from the "Stallings" Jones Braves last night in the United League games on the Pastime alleys. From the scores last night it doesn't look as if the Tigers are going to be weakened by the registration of one of supposed-to-be strong men as they shot the three highest games they have shot this season, totaling 2843 which is second high total for this league. "Der Kaiser" had high score and high average.

Pittsburg reports a 50 per cent decrease in the number of money orders sent to Europe.

Griffiths Best In Akron Bout With F. Welsh

Akron, Feb. 2.—Johnny Griffiths, Akron lightweight, outpointed Freddie Welsh, the champion, in a 12-round bout here last night, according to the majority of newspaper men who saw the fight. No decision was given.

The fighting was fast and Griffiths' advantage, if any, was merely a shade. He showed particularly well in the seventh and eighth rounds, and was very fast in the first six rounds. The sixth, tenth and eleventh rounds are given by the newspaper men to the champion, however, and his work in these to a great extent offset Griffiths' early advantage.

Welsh showed himself superior at infighting and forced the fight all the way through. Griffiths tried to keep his opponent at long range fighting, in which the home boy used his left to good advantage.

While both were supposed to weigh in yesterday afternoon at 135 pounds, Welsh refused to get on the scales and they fought at catchweights, Welsh weighing about 139 pounds. Matt Hinkle of Cleveland refereed.

Keep It Handy for Rheumatism. No use to squirm and wince and try to wear out your Rheumatism. It will wear you out instead. Apply some Sloan's Liniment. Need not rub it in—just let it penetrate all through the affected parts, relieve the soreness and draw the pain. You get ease at once and feel so much better you want to go right out and tell other sufferers about Sloan's. Get a bottle of Sloan's Liniment for 25 cents of any drugist and have it in the house—against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief. Buy a bottle today.

Notes and Comments.

This report shows an improvement in the number enrolled, the number perfect in attendance, the percentage of attendance, and the number of cases of tardiness over the same month last year.

February being a month of birthdays of many distinguished Americans, the superintendent has sent out a request to all teachers to set aside the afternoon of February 19th for special exercises of a patriotic character. The public is invited to be present to enjoy these programs.

The superintendent of schools has received from the trustees of the new City Hospital a certificate of stock in the amount of \$250 which is the school children's subscription during the hospital campaign in 1912. We are proud of this certificate and it shall be framed and placed in the office of the board of education.

Our trust officer, Mr. F. G. Handel, is performing a noble service to the children of the schools who are needy. Scarcely a day passes that several children are not aided to the

way of shoes or other clothing. If the boys and girls of Newark schools could see the number of children made happy because of their Thanksgiving offering in money, and their Christmas offering of second-hand clothing, I am sure they would rejoice. Best of all no child is humiliated.

This year the superintendent of schools has been making a special effort to improve the instruction in the schools. In order to do this he has had many teachers' meetings made up of small groups of teachers. The keynote of all these meetings is "Better Teaching," with the purpose to secure "better thinking" on the part of pupils. In these meetings, he appreciates the interest and support of teachers and principals.

(Signed) WILSON HAWKINS, Superintendent of Schools.

SUNDAY AT MAPLE AVENUE CHRISTIAN UNION CHAPEL.

Sunday, January 31st, 1915, will go down in the history of North Newark Christian Union as one of the most glorious days of her history. The Sunday school at 9 o'clock, led by the pastor and closed by the superintendent, was largely attended, and a large portion remained throughout the entire day. This was the last day of Rev. West's stay with this people as evangelist. His morning sermon was on the line of Christian Union doctrine, and was well received. At the close of the morning service, eight united with the church. At 2 p. m., after a bounteous dinner, enjoyed by about 200, the juniors held a very interesting meeting, led by Miss Woodyard, with 25 in attendance. At 3 p. m., Rev. West preached a heart-searching discourse, at the close of which one united with the church. Quite a number remained for supper. At 7 p. m., there was a half-hour song and testimony service, in which near 100 testified to the saving and keeping power of the Saviour. Rev. Mr. West preached his farewell sermon, in which he warned against the sins of life and exhorted the people to stand with the Lord Jesus Christ. The Evangelist went home Monday morning, to get ready for a meeting in Fulton county, and this leaves the pastor to continue the meeting. Services every night this week. Business meeting Tuesday night. Special offering for the piano fund Wednesday night.

The fellow who thinks life is a joke will generally find the joke is on him.

RHEUMATIC SUFFERERS GIVEN QUICK RELIEF

Pain leaves almost as if by magic when you begin using "5-Drops," the famous old remedy for Rheumatism, Lumbago, Gout, Sciatica, Neuralgia and kindred troubles. It goes right to the spot, stops the aches and pains and makes life worth living. Get a bottle of "5-Drops" today. A booklet with each bottle gives full directions for use. Don't delay. Demand "5-Drops." Don't accept anything else in place of it. Any druggist can supply you. If you live too far from a drug store send One Dollar to Swanson Rheumatic Cure Co., Newark, Ohio, and a bottle of "5-Drops" will be sent prepaid.

There is a marked tendency this winter for the railroad time tables to become a "scrap of paper."

If the tea supply should be cut off by the war, it is feared the afternoon literary meetings would have to be suspended.

It is no wonder there are so many unemployed in the cities, when it is such hard work farming, and no picture shows in the country either.

The haggard faces one often sees in Lent may not be due so much to fasting, as to the fact that the people attended four dances the week before.

Don't expect the children to close the doors on a cold winter's day, as their time is very valuable, but just go around after them quietly and do it yourself.

The San Francisco girls feel that Father will be much pleased, now that they can call up New York and order their hats at \$20.75 for three minutes talk, thus saving the expense of a trip to Paris.

There is a widespread feeling that it will be much better to pay \$10 a barrel for flour and 40 cents a pound for beef all next season, rather than to blister your hands raising potatoes and corn in the back yard.

Mr. Hobson's Convictions.

(Pittsburg Dispatch.)

The administration's denial of the charge made by Representative Hobson as to a deal with Japan is superfluous. It is impossible to imagine any sane American believing for a moment that an American government had attempted such a thing. Mr. Hobson's mental attitude on his supposed "yellow peril" has long been recognized as a mania, but that it should have led him to utter a conviction that "peace with Japan has thus far been secured by the present administration and war averted by assurances that America would speedily retire from the Philippines," shows it to have progressed farther than anyone had supposed.

His further conviction that as a price of peace Japan will be given a free hand in China with the prospect

Feb. 2 in American History.

1651—Sir William Phips, or Phips, famous colonial governor of Massachusetts, born: died 1685
1648—Treaty of peace between the United States and Mexico signed. Mexico ceded California and New Mexico to the United States in consideration of \$15,000,000 and release of all debts to United States citizens.
1804—The famous war corvet Kearsarge, which vanquished the Confederate cruiser Alabama in 1864, wrecked in the Caribbean sea.

ASTRONOMICAL EVENTS.

Evening stars: Jupiter, Saturn. Morning stars: Mars, Venus. Constellation Cassiopeia, conspicuous in the northwest, forms a nearly perfect outline of the letter W.

Spirit of the Press

Greeting to Kaiser.

Those people who find fault with President Wilson because of his formal birthday message to the German Kaiser must have peculiar notions of gentlemanly conduct. Not long ago the Kaiser sent the same perfunctory form of greeting to the President. Apparently the critics of the latter think that he should cut the Kaiser's acquaintance to show his disapproval of war. These are not the standards of politeness that obtain among gentlemen. The President will not show himself a boor even to please these self-constituted censors of morals and manners.—Philadelphia Record.

Luxuries of Other Wars.

War conditions are sterner today than a century ago, but we gain rather a startling glimpse of the manner in which Wellington's officers "did themselves well" in the letters of Ralph Heathcote, from the pen of a "You was, not compare an English captain of dragoons with a French or German one," he wrote to his mother. "The respectability, the situation, is quite different. For instance, I keep four horses, three baggage mules, four servants, besides a woman cook, and can give my friends port wine, claret, Madeira and vin de grave any day, either in camp or town, carrying all this about with me!"—London Chronicle.

Modern Methods.

A new wrinkle in burglary seems to have been introduced by the "operator" who gagged a householder and compelled him to sign a check from a check book and with a fountain pen provided by the burglar. Perhaps, if the practice develops, some method could be devised of having the check certified on the spot.—New York World.

Retaliation.

In a Huntington (W. Va.) church conditions were reversed and the congregation preached to the minister. He should have retaliated by going to sleep.—Pittsburg Gazette Times.

A Piker.

Nearly \$50,000,000 burned up in five months of war, exclusive of life and property loss. The American arson trust is an absurd piker compared with the legions of Wars.—Omaha Bee.

A Wise Postponement.

The Administration has done well in postponing the formal opening ceremonies of the Panama Canal from March until July. Unless Col. Goethals is mistaken, which is highly improbable, the recent slides in Culebra Cut have closed the canal for the time being to battle-ships, and the work of clearing the channel will not have progressed sufficiently by March to permit the fleet to pass through. A formal celebration of the "opening" of a Panama Canal closed to the American fleet would be a burlesque. The ceremonies can well wait until July. Perhaps by that time the American people themselves will be in a better mood to celebrate.—New York World.

Congressional Badges.

If congressmen wore badges, as is proposed, would that keep them out of places where they ought not to go or only just get them out when caught?—Philadelphia Press.

He Will Earn It.

Since no Nobel peace prize is to be awarded for 1914, there ought to be twice as much for the man who does the most for peace this year—and, if he brings peace, he will earn it.—Boston Globe.

Pointed Observations

Every man likes to make the impression that he is a man of peace, but a beach-cat when he does get started.—Athens Globe.

GOOD EVENING Did you ever notice that the man who goes about looking for trouble generally finds more than he wants of it.—Lima Times-Democrat.

If John D. Rockefeller Jr., by an hour's interview can convert Mother Jones into a warm friend, he may yet get ambition and try to capture Compers.—Pittsburg Dispatch.

Love is not the only thing that can level ranks. For instance there is leaving a Duke out of father-in-law's will.—New York World.

However, there is a kind of national success in keeping out of a war.—Chicago News.

Who will win in this war? An English bishop, after the Yankee fashion

and with a marked touch of the Yankee wit, answered the question by asking: "Who won the San Francisco earthquake?"—Providence Journal.

Switzerland has forbidden the export of chocolate to the belligerents. Switzerland also disapproved of the chocolate soldier.—New York Evening Sun.

England will have to widen the channel if the Germans increase the range of their guns another mile or two.—Rochester Herald.

The Kaiser is clearly just as certain that "one man with God is always in the majority" as he is about the identity of the one man.—New York World.

Even amid the turmoil of politics and the terrors of war, there are men who are worrying whether the ground hog will see his shadow.—Washington Star.

If Mr. Rockefeller the elder has given \$250,000,000 to philanthropy, as his son testifies, those who estimate his total wealth past and present as at least half a billion may be approximately correct.—Springfield Republican.

Uncle Walt

GOSSIPS

Though great be your virtue, the gossips will hurt you, or struggle like blitzen to do it, alas! Your conduct is shocking! The neighbors are talking, they whisper together whenever you pass! Though you may endeavor to shun them and never give gossips a chance to indulge in their game, yet, waking or sleeping, they still will be keeping their tab on your doings, to injure your frame

But heed not the neighbors, and smile at the labors of insolent gossips whose tongues never rest; they still would be talking and jeering and mocking, if you had descended from realms of the blest I'm earnestly striving, while yet I'm surviving, to do the right thing, when the right thing I know; each day I am trying to comfort the sighing, to keep a clean slate and to pay what I owe. So little I'm caring how gossips are faring, or what they may say as I gambol along, a stranger to worry, I jump in my surry, I'm chipper and cheerful, my soul's full of song. The critters who handle their job lots of scandal, are woe-begone people, a gloom ridden host; and they might be smiling, and find life beguiling, if they would just copy the fellows they roast.—WALT MASON.

Copyright, 1915 by The Adams Newspaper Service.

A Little Fun

Foot Trouble.
"So you missed your train by just a minute. How was that; was your watch slow?"
"No, my feet."—Boston Transcript.

Most Missed.
"So you don't like living in the country? What do you miss most since moving out of town?"
"Trains."—Philadelphia.

No Excuse.
Dauber—I observe that you don't like my pictures, sir; but I can only paint things as I see them.
Critter—Then you shouldn't paint while you're seeing like that.—Boston Transcript.

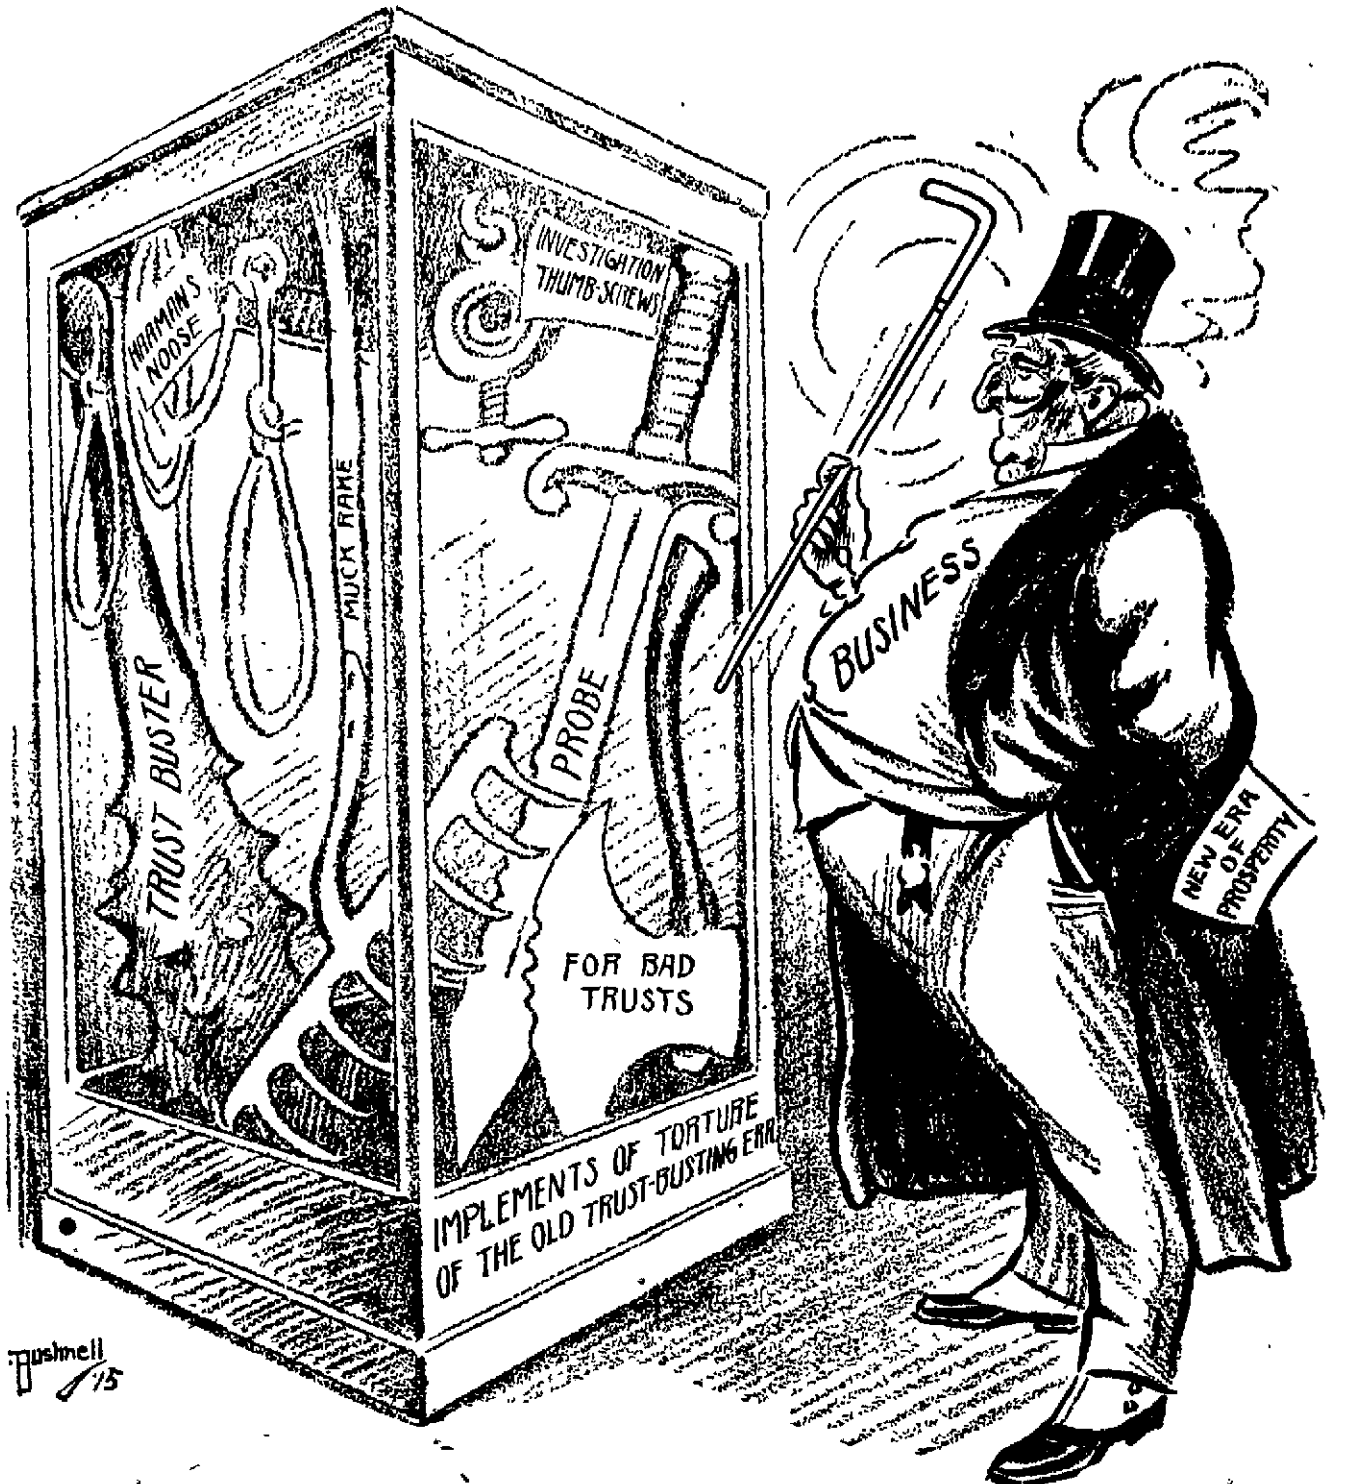

Distinctly Rush-League.
"Majolica pitcher brings \$655 in sale," read Mrs. Fan.
"Hught!" sneered Mr. Fan. "He can't be much of a player."—Buffalo Express.

Well Recommended.
Divorce Plaintiff (testifying)—My husband's cruel conduct caused me to lose sixty pounds.
Fat Lady (in audience)—I wonder if I could hire him to marry me?—Puck.

My Isn't She?
"Is she proper?" "You bet; she is so proper she won't accompany you on a piano unless she has a chap-eron."—St. Louis Post-Dispatch.

Just Madlin.
Mrs. Lit E. Rary—"What is your idea of the character of Macbeth?" Mrs. Pork Packer—"Oh, I reckon her character was as good as anybody's."—Florida Times Union.

TIMES HAVE CHANGED

Not of Great Importance

A Self Governing Nation Must Be Self Protecting

By Dr. LYMAN ABBOTT, Editor and Preacher

OUR secretary of the navy tells us we need more men. An ex-president tells us we need one hundred and twenty-five thousand men for efficiency. Our present president tells us we do not know the facts. The American people have a right to know the facts.

A democracy must know its weakness as well as its strength. When we look toward the present war, can we doubt that there is an element of barbarism, of might over right?

A SELF GOVERNING NATION MUST BE A SELF PROTECTING NATION. WHAT GOOD IS IT TO HAVE A MILLION MEN WHO ARE READY TO FACE THE GUNS IF THEY CAN'T WORK TOGETHER MORE THAN AN INFANT CAN KICK A FOOTBALL? IT SHOWS WE OUGHT TO HAVE A CITIZEN SOLDIER TO GIVE PROMPT OBE- DIENCE TO AUTHORITY.

Dr. L. ABBOTT.

Hostage.
Traveler—Will there be time to get a drink, guard? Guard—Yes, sir; plenty of time, sir. Traveler—What guarantee have I that the train won't go without me? Guard (generously)—Well, sir, I'll go an' have one with you.—Sydney Bulletin.

A Chilean province has established two floating schools to enable the residents of its many islands to obtain an education.

Has His Good Points.
Sile Witham says there's one thing about the devil he can't help but admire. He was never known to break an engagement.

A customer went into Norton's bookstore yesterday to look for an entertaining book. Nothing that was suggested seemed to meet the buyer's requirements. She finally asked: "Has O. Henry written any new stories lately?" "No, madam," said Mr. Norton politely, "not since he died." It is only fair to Mr. Norton to say that his acquaintance with his customer permitted this reply.

An ideal wife is one who knows where coaving ends and nagging begins.

The high speed records are all held by women who started to go to the devil.

Love has its compensations. By the

time a boy is old enough to marry his teacher, he has ceased to care for her in that way.

The rule is that men are good fellows and poor husbands.

A man is mighty brave and fearless when he is talking to his womenfolk. Buck Kilby says riding horseback is the most exasperating punishment.

Everybody has something. A man has dandruff and a woman cold feet.

After you have said you are sorry, get out of the sick room. The doctor and nurses will do the rest.

Every man plays more or less to the gallery. The difference is that the methods of some are subtler than the methods of others.

Marriage means that a man must devote most of his leisure time to replying to questions to which the answer is perfectly obvious.

Readers' View Point

State Legislation.
Editor of the Advocate:—Since the Republican administration with its general assembly has assumed control of the state government, it becomes more and more apparent to the casual observer, that it is incompetent to grapple with the usual questions that confront a great state like Ohio.

At the same time that Governor Willis is advocating the necessity of taking care of the unemployed by putting them to work at such jobs that really should not be done until next summer in order to relieve their distress and put money into circulation, along comes Senator Wickliffe with his bill cutting the number of members of boards of elections, enlarging the voting precincts and making fewer registration days, thus withdrawing nearly a million dollars from circulation and jeopardizing the purity of elections.

It also wants to carry out its pre-election promise, foolishly made, to emasculate the Wines law. But it sees now if it does that, it will create a deficit that taxpayers will be compelled to make up in some other way. It is to be hoped by men of all political parties that there are enough substantial and well-meaning members in the general assembly to

change no law or make any new ones only when it is for the best interest of the people. READER.

A Cynic.
"Even the women who are not widowed by this war will find little pleasure in life when their husbands return."
"Why?"
"This paper says the heavy firing is making most of the soldiers deaf."—Puck.

Unreasonable.
Mother—What in the world is the matter with baby brother?
Bobby—He found a screw and he is crying because I can't unwind it for him.—Puck.

Read Advocate Wants tonight.

PURE RICH BLOOD PREVENTS DISEASE

Bad blood is responsible for more ailments than anything else. It causes catarrh, dyspepsia, rheumatism, weak, tired, languid feelings and worse troubles.

Wood's Sarsaparilla has been wonderfully successful in purifying and enriching the blood, removing scrofula and other humors, and building up the whole system. Take it—give it to all the family so as to avoid illness. Get it today.

DO YOU KNOW WHY --- You Never Get Hurt When You Carry A Policy?

Drawn for this paper By Fisher

Society

Miss Hazel Spurrier entertained the members of her club on Friday night at her home in Morris street. The evening was devoted to games and music and refreshments were served. Those present were: Misses Hazel Nibbold, Ines Deah, Muriel Boner, Eva Wolf, Violet Cross, Ila Bittle, Sylvia Proctor, Mrs. H. Kelley, Mrs. Bertha McCoy, Messrs. Milton Drumm, Edward Ewald, George Wolf, Ralph Shaw, Charles Nelmeit, and Walter Rackett.

McVEY-JONES.

The wedding of Miss Hazel Jones of Newark and Mr. Frank C. McVey of Columbus was solemnized on Monday evening at 5:30 o'clock at the parsonage of the First M. E. church, Rev. L. C. Sparks officiating. Mr. and Mrs. McVey will make their home in Columbus.

MACK-McNICHOLS.

On Monday afternoon at 3 o'clock, Rev. L. C. Sparks united in marriage Miss Gertrude L. McNichols and Mr. Frederick Mack. The wedding took place at the parsonage of the First M. E. church in North Fifth street in the presence of several friends and relatives. Mr. and Mrs. Mack will make their home in this city.

The Y. B. Z. club was entertained Monday evening, February 1, at the home of Frances Bausch in Poplar avenue. A pleasant evening was spent after which the members and guests repaired to the dining room where covers were laid for eleven. At each place was found a dainty heart-shaped card bearing the names Miss Florence Jackson and Mr. Carl Siegel, January 1, 1915.

Mrs. Siegel is the accomplished daughter of Mr. and Mrs. F. E. Jackson of Andover street and was a member of the class of 1912 Newark High school, and later attended Denison University. Mr. Siegel is the son of Mr. and Mrs. John F. Siegel of West Church street and is employed as book-keeper at the Franklin National Bank.

Mr. and Mrs. Siegel were married in Wheeling, W. Va., on New Year's day. This announcement comes as a surprise to their many friends.

Mrs. H. A. Shoemaker was hostess Monday evening when she entertained at her home in Pine street honoring her sister, Miss Lillian Larson. The rooms of the home were suggestive of the approaching Valentine day, red and white hearts being used to carry out the appointments.

The table on which the supper was served was centered with a basket of red and white carnations, surrounded by glass candle holders with red shades. Ribbon streamers were strung from the chandeliers to the corners of the table.

Following the supper each guest was given a card on which was written her fortune. They were all read aloud, Miss Larson giving the date of her marriage to Mr. Richard Owen. The event will take place on February 18. Miss Larson is the daughter of Mr. and Mrs. William Larson of West Main street, and is a young woman possessing many accomplishments.

Mr. Owen is the oldest son of Mr. and Mrs. Thomas Owen of the Sharon Valley road. He is one of the most prosperous young farmers of the surrounding districts.

The guests last evening were: Misses Ura Rector, Bess Morgan,

Kill the Dandruff Germ
Grow Nice, Thick Hair

Many men and women troubled with itching dandruff—the germ that brings falling hair or baldness—get the mistaken idea that a hair wash or tonic will give them a heavy, long, lusty growth of hair. It's all nonsense. The dandruff germ has his house inside your hair roots and he won't be killed 'till you go under the scalp to get him. Not only should the scalp be kept clean and healthy to promote soft, fluffy hair but you must feed the little follicles or pores in which the hair is seated, with nourishment that destroys every chance of life for the dandruff germ. Loss of hair is merely dissolve the surface scales of dandruff and the sticky glycerine glues the dissolved pieces tightly to the hair strands, fooling folks into thinking the dandruff's all gone—'till it begins falling over one's clothes a day or so later.

Even the first day's use of "Wild-root" will prove its value for the dandruff falls from the head in veritable showers on combing. But quickly after the scales are dropped the scalp again may produce a thick, luxuriant growth. Any good, first-class druggist sells "Wild-root," which is inexpensive, contains only pure vegetable oils and no acids or alkalis. A bottle will last considerable time and the chemists who make it guarantee perfect satisfaction or money back.

Mary Larson, Nell Edwards, Beatrice Kelley, Dorothy Kelley, Frances Monnet, Mabel Bangert, Rachel Rhoades, Tone Coke, Emma Boushrie, Ada Blinn, Ada Fletcher, Kate Brooks, Leona Ferguson, Mary and Elizabeth Owen, Mrs. Obie Hartshorn, Mrs. Iva Höckenberry, Mrs. S. S. Brown, Mrs. S. B. Larson, Mrs. William Larson.

The Elks Social Club is entertaining with a card party for the women this afternoon in the club rooms. On Wednesday evening they entertain with a dancing party at Assembly hall.

The Monday Talks were entertained on the club day at the home of Mrs. C. C. Metz in North First street, and the paper Magellan and the Straits He Named. The Falkland Islands was given by Mrs. Jones. A report of the Southeast district convention was given at the meeting.

Miss Edythe Hall entertained the members of the Monday Night Bridge club on the club night at her home in West Locust street. The club servers were awarded to Miss Edythe Hall and Miss Mary Morath. The guests of the club were Miss Mary Morath and Mrs. Helen Warner.

The Girls Twentieth Century club met at the home of Miss Mildred Simpson in Sixth street on Saturday afternoon. The time was spent in working on covers for the bassinets for the baby room in the City Hospital which the girls of the club recently furnished. The next meeting will be held at the home of Miss Hazel Colville in Woods avenue.

A crowd of young people passed a very enjoyable evening at the home of Miss Nan Showman on Monday. A very pleasant evening was spent in dancing and delicious refreshments were served.

Those in the party were: Misses Hilda Oberfield, Clara Fullen, Florence Stone, Stella Nold, Lucille Weber.

In Milady's Boudoir

BY GWEN SEARS.

THE BOUDOIR IN ORDER.

If a friend dropped into your boudoir some morning when you did not expect her, would you have to apologize for the appearance of your dressing table? Are your little aids to beauty scattered hither and thither and intermingled with soiled gloves, a few handkerchiefs, hair-pins, and the hundred other trinkets which go to help the modern woman in her pursuit of the goddess Beauty?

No matter if you have only a very small bed room, where you spend your sleeping hours as well as your time for dressing, your dressing table should be kept dainty and sweet and orderly.

In the shops one can buy boxes for hair, some bags conveniently where, for kerchiefs and stocking bag the practice of dandruff backs of yet even on the floor masses. If with the boudoir evolved out of cretome.

Is a necessity, nothing adds the general room as sew-shoes and slip-carelessy chairs and a enameled book would suggest a proper place for the dressing gown when not in use. The boudoir cap would look daintier caught on the side of the dressing table mirror, than thrown carelessly on the bed, or perhaps tossed on the dresser.

Habits formed in the boudoir are the index of every woman's character. Without ever having met a woman, one could easily read her nature if they were to walk into her private dressing room, immediately after she has left it. Have a care, lest some one does this, in yours.

Mary Neimath, Louise Reichert, Esther Johnson, Pearl Haycock, Mary Bryor, Mary Pullen, Messrs. Charles Haslop, Stanley Simpson, Hugh Hout, Jack Taylor, Bernard Wells, Alva Russell, Melvin Jones, Jack Evans, Raymond Day, Lawrence Pryor, Edward Duffey and Clyde Williams.

Miss Josephine Hull entertained the members of the W. W. K. club at her home in James street on Saturday evening. The following members, Misses Florence Orr, Catherine Butler, Jesse Simpson, Hazel Long, and one guest, Miss Hilda Solinger were present. The next meeting will be held on Friday, February 8, at the home of Miss Catherine Butler in Eddy street.

The Corticella club will meet tomorrow afternoon at the home of Mrs. Provin, on Granville street.

Call for Players
of Y. M. C. A. Team

The following "Y" basketball players are requested to be at the Y. M. C. A. promptly at 7 o'clock Wednesday night for practice: Davis, Keys, Hazlett, Fernow, Benthich, Orr, Friener, Long, Beggs and Lucas. This will be the last practice before the game on Friday night against Mt. Vernon.

THE SICK

Mrs. Effie Strocker was taken to the City Hospital today where she will undergo an operation for appendicitis. The attending physicians being Drs. Harbottle and Davis.

An English aviator, using a new type of folding parachute, recently dropped 2000 feet in safety.

Abe Martin

If there's anything a man hates worse'n millinery it's millinery. Money may not bring happiness, but it at least seems to happen along about the same time.

TO REMOVE EVERY
SIGN OF DANDRUFF

Try This Simple Home Treatment.
It Surely Makes the Hair Soft,
Fluffy and Lustrous.

If your hair is not pretty, if it is losing color, too dry, matted, falling out, or if your scalp itches, you can quickly overcome all of these conditions at a trifling cost and only a few moments time. Just get from T. J. Evans or any drug counter, some Parisian Sage, a most helpful and invigorating tonic that supplies every hair need. It is easily applied, absolutely harmless and as inexpensive as it is beneficial. Improvement begins with the first application, for Parisian Sage not only nourishes the hair roots but stimulates your hair to grow long, thick, soft, fluffy and lustrous. It immediately removes every bit of dandruff and stops itching scalp.

Be sure to get Parisian Sage for there is no other so effective and this will surely give your hair new life and beauty.

Obituary

James Terrell.
James Terrell, aged 24 years, died at St. Anthony's Hospital, Columbus, Jan. 31 of spinal trouble. He leaves a mother, father, one sister Elizabeth, one brother, Christian. One uncle Joseph Seelig of Cleveland, an aunt Lena Seelig of Florida and Miss Ella Gray of 200 North Fourth street, Newark. Funeral Wednesday afternoon at 2 o'clock.

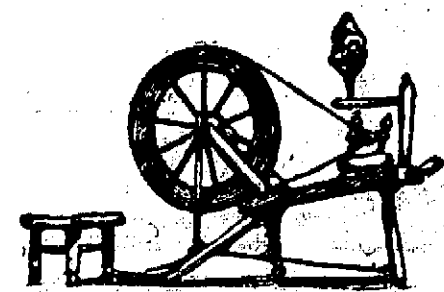

A. H. Rickert's Mother.
Mr. A. H. Rickert of North Fifth street was called to Chicago today by the death of his mother Mrs. Henry Rickert, who died in that city. Mrs. Rickert was 84 years old and is survived by four sons, Cyrus, Charles and Harvey of Chicago and Mr. A. H. Rickert of this city. The funeral services will be held on Thursday and the burial will take place in Naperville, Ill.

Mr. Smith's Funeral.
The funeral of Ezra H. Smith, who died in Sandusky Friday night, will be held Wednesday at 10 a. m. at his late home, 133 Ninth street, Rev. L. C. Sparks officiating. Lenert Post G. A. R. will have charge of the services. Burial at Cedar Hill cemetery.

Death of Infant.
Joseph Buynos, the infant son of Mr. and Mrs. Joseph Buynos, died at the home of the parents, 294 Baltimore street, on Tuesday morning at 7 o'clock. Burial on Wednesday morning at Mt. Calvary.

Augustus Clark.

due Tuesday morning after a short illness. Mr. Clark was a native of Ohio. He was born Nov. 5, 1851. He is survived by his wife.

Funeral services will be held at the home Friday, the hour not having been decided upon. The body will be taken to Granville for burial.

Mrs. M. L. Cramer.

Mrs. M. L. Cramer, of 126 Maholm street, died this morning at 11:15 o'clock, dissolution being caused by a complication of diseases. Mrs. Cramer was born in Eden township, July 20, 1861, and was married Sept. 18, 1879, ten children being born of the union, the husband and six of the children surviving, they being Jacob, Donald, Alva, Walter, Mrs. Mabel Castele and Mrs. Nora Patton, all of this city. Two brothers and three sisters also survive, John Porterfield, of South Williams street, this city, James Porterfield, of Yates City, Ills., Mrs. Mary A. Ellis of German street, Mrs. Christina Reese of Clinton street and Mrs. Amanda Walker of Clay Lick, Licking county, O. Mrs. Cramer was a member of the Plymouth Congregational church. No

funeral arrangements have yet been made.

Card of Thanks.

We desire to express our sincere thanks to our neighbors and friends for the kindness and sympathy shown us in our bereavement. The Rev. Hawk for his consoling words, Miss Chrysler and Vanattaburg choir for the beautiful songs; the neighbors and King's Daughters for the flowers. Mrs. Sarah Holler, J. F. Holler and Family.

Card of Thanks.

We wish to thank the many friends and neighbors, both in this city and Thornville, for the many kindnesses and sympathy shown us during the sickness and the death of our dear son. It was certainly very kind to be remembered with such beautiful flowers and we shall cherish the loving sentiment, and will ever be grateful to all. Sincerely, Mr. and Mrs. Emil Sohn and Daughters, 2-11

EVERYDAY
ETIQUETTE

"Should a lady when receiving accompany her guest to the door?"

"As a rule the lady who receives does not accompany any guest so far even as to her drawing room door. At least, not so long as other callers remain and when she is the only one receiving," answered her society friend.

John Jayne of Pittsburg was a business visitor in the city on Monday.

YOUR BOYS
AND
GIRLS

While breathing is essential to life, the voice aids in bringing oxygen to the blood, because speaking and singing tend to increase good, full breathing and this in turn, has a beneficial effect especially in children upon digestion.

A leading specialist once said that enlarged tonsils and adenoids are results and not causes of mouth breathing. Therefore, parents should realize the importance of early training and speaking voice of children. The method of speaking with closed teeth and indistinctness of consonants should be fought against and pure vocal sounds should be sought for by parents. Haven't you ever noticed how children when playing often scream and shout hoarsely? This should be at once checked, as it makes the voice coarse and shrill. In some cases parents are to blame for this, and should remember that children are regular mimics.

John Eckleberry, employed as a driver for the J. Gleichauf store, is ill at his home in Central avenue with the grip.

"I Don't Feel Good"
That is what a lot of people tell us. Usually their bowels only need cleansing. **Rehall Orderlie** will do the trick and make you feel fine. We know this positively. Take one tonight. Sold only by us, 10 cents. Frank D. Hall.

Chicago Grain.
[ASSOCIATED PRESS TELEGRAM]

Chicago, Feb. 2.—Wild efforts to buy wheat today made prices run up beyond the celebrated "corner" record of 1909—\$1.60 a bushel. Not long after the opening today the May delivery was sold at \$1.60. Profit taking then set in and a reaction of a cent took place, but prices quickly followed the advances in Liverpool markets owing to the increased war risks.

IMPORTANT NOTICE

A Fashion Expert representing McCall Patterns and Publications will be at our Pattern department Wednesday, February 3rd, to explain to the ladies of Newark the unequalled merit of these celebrated Patterns and Publications.

If you are not already a subscriber for that wonderful little Magazine—McCall's—now is the time to enter your name. Only 50c a year—and if you buy a 15c Pattern, only 35c, renews the same.

The McCall Quarterly—a handsome book of fashions—only 5c if you buy a 15c Pattern.

Do not fail to visit our store on that date.

Free—McCall Doll Pattern—Free.

Every little girl who calls at our Pattern Counter Wednesday, February 3rd, will receive a dainty McCall Doll pattern free. All are welcome—each pattern is for a complete doll dress.

RATTENBERG'S DEPT. STORE.
Eleventh and West Main.

cause of submarine attacks on commerce were mainly responsible for the excited buying in the wheat pit. After the war, the market which ranged from 1/2 cent to 3/4 cents above last night, the market scored a material further gain before the severe tension relaxed, and the usual swings in price began.

Corn sympathized with the bulge in wheat. Besides, rural offerings to arrive were smaller. The evening which ranged from 1/2 cent to 3/4 cents higher was succeeded by a slight additional gain.

Trade in oats was of large volume, with prices on the advance as in other grain. Export demand was again in evidence. Higher values for hogs and cereals gave a substantial lift to provisions. The increase in warehouse stocks of beef and house products seemed to be ignored.

Chicago Produce.
Chicago, Feb. 2.—Butter: Firm, creamery 24¢.
Eggs: Higher; receipts 5284 cases; at mark cases included 34¢; ordinary firsts 26¢; (case) 2¢.
Potatoes: Unchanged; receipts 10 cars.
Poultry: Alive, higher; springs 15¢; fowls 14¢.

New York Stock Market.
[ASSOCIATED PRESS TELEGRAM]

New York, Feb. 2.—Speculation on the bull side was on a light scale at the opening today, partly as the result of disengagement to the facilities for the storm and the vigorous character of yesterday's late rise, which prompted realizing. Prices in nearly all instances were higher, particularly steel, which rose almost a point to 40¢. Reading, which made a striking advance yesterday, closed at 39 1/2¢. Steel was again dropped out of its unfavorable December earnings but met support.

Prices related all around before the end of the first hour, Canadian Pacific losing two points, and Reading and Steel yielding on profit-taking. Selling was heavy in the afternoon. Steel, which rose almost a point to 40¢, Reading, which made a striking advance yesterday, closed at 39 1/2¢. Steel was again dropped out of its unfavorable December earnings but met support.

Steel, which rose almost a point to 40¢, Reading, which made a striking advance yesterday, closed at 39 1/2¢. Steel was again dropped out of its unfavorable December earnings but met support.

JUNK DEALER ARRESTED FOR NOT REPORTING

Six warrants have been issued in Squire Fletcher S. Scott's court against Michael Keeley, subscribed to by Ira O. Stouffer, B. & O. Detective. Keeley, who is a junk dealer, is charged with failing to make a daily report to the mayor as required by law, buying brass engine parts from minors, with disposing of parts before thirty days, and three other charges relating to the matter. B. & O. officials state that during the past few weeks over four hundred brass has been stolen from their road and disposed of to various junk dealers. These dealers are required by law to make a daily report to the mayor of all such purchases. They are also required to keep it on hand for 30 days before disposing of same.

Personal

Harry Hess who has been spending several days in Newark with friends leaves on Wednesday for his home in New York City.

The C. B. A. will have a business meeting and special in the K. of C. rooms tonight.

Mr. Schofield, president of the E. H. Clark Advertising agency, Chicago, is the guest of Mr. Howard Darrow, today.

Mr. Charles Williams of Elmwood avenue, has returned home from Seaman, O., where he was called by the death of his mother.

Dr. D. H. Miller returned last evening from Cleveland, where he was called on professional business.

Dr. and Mrs. W. A. Charlton were in the city last evening on their way from Cincinnati to Easton, Pa. Dr. Charlton was for some time assistant surgeon on the B. and O. but was transferred a few months ago to Cincinnati. He has now secured a six months' leave of absence from the B. and O. to enter the hospital at Easton as surgeon.

Mrs. Mahlon Rine of Hanover, Mrs. George Richards of Granville, and Mrs. Guy Montgomery of Dresden were guests Monday of Mrs. J. L. Fuhart of Linden avenue.

Mrs. Mahlon Rine of Hanover and Mrs. Guy Montgomery of Dresden were guests from Saturday to Monday at the home of their sister, Mrs. Geo. Richards of Granville.

"Pop" Walls, one of Zanesville's best known citizens was a visitor in the city Monday, guest of his son-in-law and daughter, Mr. and Mrs. Ralph Hutchison of Hudson avenue.

Frank "Kokomo" Crouch of Upper Sandusky, O., was a visitor in the city Monday and Tuesday, spending a part of today in Utica on business.

Mrs. W. N. Fulton and daughter, Miss Grace Fulton, left yesterday for Naples, Fla., to visit Mr. and Mrs. Jas. K. Hamill.

Miss Anne Pulver, who has been visiting friends in Newark, left today for her home in Mansfield.

Mr. William Graef has been quite ill at his home in Clinton street for the past several days.

Mr. and Mrs. J. J. Vogelezang of Canton are visiting at the home of Mrs. Wulphoff in Clinton street, having been called here by the death of Mr. William Vogelezang.

Charged With Assault.
B. F. Clover of Mary Ann township has sworn to an affidavit in Justice Fletcher S. Scott's court charging Amzi Smith with assault with intent to kill. The trouble is said to have occurred in the vicinity of Wilkins Corners.

WHAT IS IT?

IT'S JUST A PLASTER CAST

There will be a public meeting held in the Council Chamber, in the City Building on Wednesday evening February 10th, at 7:30 o'clock for the purpose of discussing the question of the advisability of providing Electric current for the Municipal Light Plant of the said City. An invitation is hereby extended to every organized body in the City to send a representative to said meeting. All Citizens that are interested in the matter are also invited to attend.

By order of the City Council, C. B. Keller, president; J. S. Woodward, clerk.

SAW HIS SHADOW.
The groundhog had a chance to see his shadow as the sun came out at short intervals about 1:20 to 2:30 o'clock this afternoon, so we can prepare for six weeks more of rigorous cold weather.

"Queen Anne's fan" was the polite name for the action which consists of putting one's thumb to the nose and wiggling the four fingers in derision.

A Service For All

From 12 to 14 hundred; blocky build; must be in good flesh and pike right. Inquire Desso Colville, both phones. 1-30-3t

HEADACHE, COLDS, COSTIVE BOWELS, TAKE CASCARETS

Get a 10-cent box now.
You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills, or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gritty or sicken.

In Ultima Thule.

A New York newspaper man went as a correspondent for his paper to the national Democratic convention of 1908 at Denver. He traveled on the special which carried the New York city delegation.

On the second morning out Green, on going into the diner for breakfast, found every table occupied by at least one person. He took a chair opposite a stout gentleman who had all the earmarks of an east side district leader.

The train was flying through a fertile and populous section of Illinois. Pretty towns, fine farms and clustering hamlets flitted by them. There were farmers and hired men at work in the fields and women stood at the doorways.

The politician gazed out of the window at the picture. Then he turned to Green with the air of one who had made a notable discovery.

"No matter how far you go," he said, "there's human life."—Saturday Evening Post.

An Ancient Blast From Turkey.

The Corriere della Sera reproduces the text of a quaint document preserved in the state archives at Vienna. It is the declaration of war sent by Sultan Mehmet IV. to the Emperor Leopold in 1682. "Be it known to you, the successor of the Caesars, the king of Poland and to your allies, that Mehmet, the glorious and omnipotent emperor of the east and the west . . .

is about to invade your paltry territories. We shall bring 1,300,000 soldiers, on horse and foot, to crush you utterly and lay waste to all your domains. We command you to await our coming in your residence in Vienna, where it is our intention to have you beheaded." The rest of the missive is devoted to a tirade against John Sobieski, who is promised a lingering death, preceded by elaborate and horrible tortures.—London Chronicle.

Tomorrow.

Little Gertrude of five summers had been living with her grandparents for some time. One morning she asked permission to go and spend the day at the house of a friend, when grandma, refusing to let her go that day, consoled her by saying that she could go tomorrow. The next morning found Gertrude up bright and early, happy in the expectation of the promised visit. Shortly after breakfast she reminded grandma of her promise, when she was again told that she would be obliged to postpone her visit until tomorrow. Looking up quickly, her black eyes flashing with disappointment, she said:

"Well, grandma, I thought today was tomorrow; you said it was yesterday."—National Monthly.

Electrification of the Earth.

The electrification of the earth is a problem of the physicists. As stated by Dr. George C. Simpson, observations from pole to pole have proved that the earth is a negatively charged sphere and that the flow of negative electricity into the conducting air is equivalent to a constant current of more than 1,000 amperes. Yet the charge of the earth's surface remains undiminished. More positive than negative electricity is brought down by rain, etc., and no source of a return current of 1,000 amperes is known and no explanation of its absence.

Woman's Prerogative.

"Does your wife ever change her mind?"
"Only on some minor matters," replied Mr. Meekton after careful thought. "I believe I recall that she once expressed an intention to love, honor and obey or something like that."—Washington Star.

FEBRUARY.

February has no hunch.
She will welcome be.
After January's punch.
Rather tame seems she.
Vainly trying to look arch.
See her edging night!
Ah, she lacks the speed of March!—
February's shy!

Of the April-bud and green;—
Of the flowers in May;—
Of the roses, sweet, serene,
June provides always;—
Of the birds with songs to boot
Heard in warm July;—
Of the August's bloom and fruit;—
February's shy!

Who are we to criticize
February's ways.
Since a calendar unwise
Robs her of three days;
Two, at least!—So don't forget
There's a reason why!—
At her critics' snowfalls let
February shy!

—Grif Alexander,
in Pittsburgh Dispatch.

Theatres

"Mutt and Jeff" in a New Guise.

After three seasons of veritable triumph, Gus Hill comes for a fourth season with his perennial success, "Mutt and Jeff." In an entire new dress, "In Mexico" is the title of the story that is to form a back ground for Bud Fisher's inimitable characters which easily assume the credit of the greatest and most durable success of the cartoon world. The new production is an innovation of play craftsmanship's work, embodying about all of the real meat of standard amusement; the thrill

THEY WILL HAVE TO GET THE PARROTS CONSENT

of the melo-drama, the side-splitting situations of the farce comedy, the extravagance and tinsel brilliancy of the burlesque and the harmonious art of music production, not forgetting a scenic production, electrically embellished, including some startling mechanical effects that overshadow all previous attempts at realism. In this season's entertainment there isn't a thing left, but "Mutt and Jeff." The story, music, lyrics, scenery and electrical effects are all new. Mr. Hill has selected a cast superior in every respect to any he has yet been able to offer. All in all, "Mutt and Jeff in Mexico" will surely live up to the title of the one great hit in the show world and "it will go some."

It comes to the Victoria theatre, Thursday, Feb. 4, for an engagement of one night.

POULTRY GOSSIP.

Don't forget green food. Sprouted oats, outside cabbage leaves, turnips, dried clover and lettuce leaves are good. Do not feed them frozen.

Geese have a long lease of life and are less liable to disease than any other domestic fowl. Ice forms on the drinking water often quickly and should be broken often during the day. It must be remembered that water is as essential as food for poultry.

See that the incubator chick is thoroughly dry before removing it from the machine. Do not feed until the hatch is thirty-six to forty-eight hours old. Geese should never be yarded nor housed with other poultry.

A Lesson in Color Effects.

John Downman, the eighteenth century English artist, won considerable fame as a portrait painter. His method of drawing on very thin paper in black chalk with stumped shadows, heightening the drawing with stains of color mostly applied on the back of the drawing, was developed quite by accident. Soon after his return from the sea he happened to leave one of his black and white drawings wrong side uppermost on a table with his painting materials. One of his children drew got hold of a paint brush and daubed color over the paper back of where the face was drawn. Downman, finding his drawing spoiled, started to throw it away, but was arrested by the effect of the color showing through the thin paper and afterward adopted this treatment.—New York Times.

Greenland Summers.

Things grow very fast in the short Greenland summer. As soon as the snow melts off in many places the ground is covered with a vine which bears a small berry something like a huckleberry. It is nearly tasteless, but it is juicy, and the natives are fond of it.

To the Point.

Her Father—Young man, I must ask your object in coming here so often.
Young Man—I love your daughter, sir.
She is adorable, a queen. Her Father—Then, I take it, your object is to come her subject. Very well she joins.—Boston Transcript.

GIRLS! GIRLS! YOU MUST TRY THIS! DOUBLES BEAUTY OF YOUR HAIR

Immediate?—Yes! Certain?—That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

EVERY MAN WHO REPORTS WILL GET WORK ON STREETS

(ASSOCIATED PRESS TELEGRAM)
Louisville, Ky., Feb. 2.—Every man of Louisville's army of more than 5,000 unemployed, who reports at the city hall today, will be given work on the streets. Under a guarantee from Col. Marlon E. Taylor, a wealthy distiller, the city will be reimbursed in any sum up to \$20,000 that may be expended in affording these idle men immediate employment. The plan, evolved at a citizens' mass meeting last night in the city hall, is one of the first steps taken to relieve an unprecedented situation in Louisville.

JACK JOHNSON'S ROUTE TO MEXICO IS UNEXPLAINED

(ASSOCIATED PRESS TELEGRAM)
El Paso, Tex., Feb. 2.—How Jack Johnson, champion heavyweight pugilist will enter Mexico and by what route he will travel to Juarez, for his fight with Jess Willard, was unexplained today.

It was learned that federal officials are prepared to arrest the pugilist, who is under conviction in Chicago for violation of the Mann act, should he attempt to pass through the United States.

Promoters of the fight claim that General Villa has promised protection to Johnson, but at this time no port on the east coast is controlled by Villa, and occupation of Mexico City by Carranza troops would prevent his entering from Central America.

BEST WAY TO SELECT SEED.

Save From the Fruit, Melon, Vegetable or Grain Showing Superiority.

As to the best way of selecting seed, we believe there is no other way as good as saving those from the individual fruit, melon, vegetable or grain which shows superior points of excellence, says the Home and Farm. The individual should be true to type in form, color and markings, inside and out, and should be well ripened to insure a high percentage of seed germination.

One thing which should always be kept in mind at planting time is that different varieties of beans, melons, corn, etc., which bloom at the same time should, if possible, be planted far enough apart so the varieties will not mix. This makes the selection of seed for the following year much easier and enables one to keep the stock pure for a long time.

If possible, save your own seed each year of everything you want to plant, and learn to take a delight in doing it right. If by any chance you lose your own seed, by all means buy from a well established seedsmen and not on the open market. If you do you are more than likely to spend time and labor raising something which will be a disappointment. Often such seed fails to come up or is not the variety it is claimed to be.

Good Reason.

"By Jove, Dobbers!" said Chump. "You don't mean to tell me that a nice girl like that, the only daughter of a charming widow worth \$7,000,000, doesn't interest you?"
"Not in the least," said Dobbers. "I'm interesting myself in her mother."—Harper's.

Homemade Wood Sled.

In the drawing is shown a homemade sled in which all the parts are of wood. The runners are of bent hickory or other tough wood. In them stout pegs are driven to correspond with holes bored in the main frame. To add rigidity the upright pieces also

extend through the frame shoe into, but not through, the runners. The ends of these pieces are slit and forced tight by wedges, as are also the other joints. A crocheted pole completes the outfit. Such a sled is useful for drawing wood and other farm material. It is not specially serviceable on bare or stony roads unless metal runners are used.

Indeed He Has.

Hitch Your Home to Our Electric Light Plant

You're out of the world of convenience if your home isn't wired for electric light. You don't have to be. Wiring is inexpensive and it isn't a troublesome job. Any house can be wired with less inconvenience than attends the wall papering of a single room. Once done right, it is done for good and you are in command of light and power at the turn of a button, and at negligible expense.

Send for our wiring expert; take him over your house and show him where you want light, or let him advise with you—he knows. Let him work for a day or so and you will never know that he has been around except by the new fixtures and the convenience of immediate beautiful light in every room. No heat, no smoke, no fumes, no danger of fire.

Phone 1938 for our estimator. No obligation. He will explain to you how it has been arranged that you can pay for installation in seven equal payments. The total cost of an average six-room house is but \$17.70.

BLENDERS, ROASTERS AND GRINDERS

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1893 I was attacked by Rheumatism and inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedies after remedies, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent until you mail your name and address and I will send it free to you. After you have used it and it has proven itself to be the long-sought-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

MAY PUT UP BREAD PRICE IN CHICAGO

MASTER BAKERS PREDICT THAT
IT WILL BE SIX CENTS IN
FEW DAYS

In New York Also the Rise is Con-
sidered Inevitable in a Short
Time.

[ASSOCIATED PRESS TELEGRAM]
Chicago, Feb. 2.—Members of the
Master Bakers' association planned to
meet today to consider the advisability
of raising the price of buns,
cakes, doughnuts and other bakery
products sufficiently to cover the loss
on bread if that commodity is not in-
creased in price. The large bakers,
who thus far have been able to main-
tain the five cent loaf because of
quantities of flour they purchased on
contract at much lower prices than the
prevailing market quotations, pre-
dicted that before the end of the
week the price of bread will go to six
cents.

ONE CENT INCREASE
IN PRICE OF BREAD
MEANS \$16,500,000.

[ASSOCIATED PRESS TELEGRAM]
New York, Feb. 2.—There has been
considerable informal discussion here
among local bakers for some days
past, regarding the advisability of
raising the price of bread as a result
of dearer wheat and flour. Leading
bakers, in statements given to the
press today say that a rise in the price
of the ordinary five cent loaf of white
and rye bread to six cents is inevi-
table. It is figured here that if the
rise in price goes into effect, it will
mean that the people of New York
will begin paying what would amount
to millions of dollars a year more for
their bread. There are approximately
six million persons in the Greater
City and the per capita consumption
of bread per year is figured at one
barrel of flour. As bakers are able to
make 275 standard loaves out of each
barrel of flour, an increase of one
cent a loaf means an additional cost
of \$16,500,000.

Mrs. Julian Heath, president of the
Housewives' League, advises that the
average housewife, in view of the sit-
uation, would do well to learn more
of the use of cornmeal, the price of
which, she says, has not gone up to
any appreciable extent.

GROWING INDOOR BULBS.

It is well to get your bulbs early and
pot them in rich loose soil, says R. H.
Dennistoun, assistant professor of bot-
any, University of Wisconsin. The
pots should then be put in a dark,
cool place to let the roots develop. Do
not water them after planting unless
the soil becomes very dry. The soil
used for potting should be thoroughly
moistened and the bulbs planted so
that just the tips show above the
ground. If the conditions are right
the roots will begin to develop at once,
and when a good growth has been
produced green tips appear at the tip
of the bulb. Then put the pots where
the light is not too strong and let them
remain till the buds show plainly. Re-
member that bright light is good for
the bulb only after the buds appear.

The Chinese sacred lily and paper
white narcissus may be grown in wa-
ter and always give satisfaction.

Roman hyacinths and the various
kinds of narcissus are easily grown if
the above simple rules are followed.

Freerias, tulips and crocuses will do
well in pots if grown in a cool place.

The two lilies candidum and harrisi
are grand bloomers, but are slow to
develop. It is well to bury the potted
bulb out of doors till frost comes; then
bring it in to a cool cellar.

In addition to these standard bloom-
ers, there are many other bulbs, such
as the alliums, ixias, fritillarias and
oxalis, that will repay the grower in an
abundance of bloom.

Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup
Easily and Cheaply
Made at Home

If some one in your family has an ob-
stinate cough or a bad throat or chest
cold that has been lingering on and refuses
to yield to treatment, get from any drug
store 24 ounces of Pinex and make it
into a pint of cough syrup, and watch
that cough vanish.

Pour the 24 ounces of Pinex (30
cents a bottle) into a pint bottle and fill
the bottle with plain granulated sugar
syrup. The total cost is about 54 cents,
and gives you a full pint—a family
supply—of a most effective remedy, at a
saving of \$2.14. Use will usually over-
come a hard cough. Easily prepared in
5 minutes—full directions with Pinex.
Keeps perfectly and has a pleasant taste.
Children like it.

It's really remarkable how promptly
and easily it loosens the dry, hoarse or
tight cough and breaks the inflamed mem-
branes in a painful cough. It also stops
the formation of phlegm in the throat
and bronchial tubes, thus ending the per-
sistent loose cough. A splendid remedy
for bronchitis, winter coughs, bronchial
asthma and whooping cough.

Pinex is a special and highly concen-
trated compound of genuine Norway pine
extract, rich in gallocatech, which is so
healing to the membranes.
Avoid dissatisfaction by asking your
druggist for 24 ounces of Pinex, and
do not accept anything else. A guarantee
of absolute satisfaction goes with this
preparation or money promptly refunded.
The Pinex Co., Ft. Wayne, Ind.

RESINOL BEGINS TO HEAL SICK SKINS AT ONCE

You don't have to WONDER if Resin-
ol Ointment is doing you good. You
KNOW it is, because the first applica-
tion stops the itching and your tortured
skin feels cool and comfortable at last.
Why don't YOU try this easy Resinol
way to heal eczema or similar skin erup-
tion? Resinol clears away pimples, too,
and is a valuable household remedy for
cuts, sores, burns, chafings, etc. It has
been prescribed by doctors for 20 years
and contains nothing to injure the ten-
derest skin. Sold by all druggists.

HOW TO KEEP BABY'S SKIN WELL.
The regular use of Resinol Soap is
usually enough to prevent those dis-
tressing rashes and chafings to which
most babies are subject. This is so,
first, because Resinol Soap is absolutely
pure and free from harsh alkali, and
second, because it contains the Resinol
medication, on which so many physi-
cians rely for skin troubles.

FRESH AIR AND LIGHT FOR POULTRY

Too great stress cannot be laid on
the importance of plenty of fresh air
in the poultry houses if the birds are
to keep in good condition, writes Pre-
fessor Raymond Pearl in a recent
Maine experiment station bulletin. It

Hens are best identified by the
web punch. Leg bands are expen-
sive for large flocks, and they must
be changed often to fit the growing
feet. The punch mark stays.
It shows at a glance the blood line
to which the fowl belongs; it re-
cords the age and is simple of op-
eration.

must be remembered in this connec-
tion that "fresh" air and cold stagnant
air are two very different things. Too
many of the types of curtain front and
so called "fresh" air houses now in use
are without any provision other than
an obliging southerly wind, to insure
the circulation or changing of air with-
in the house.

Even with an open front house it is
wise to provide a circulation of air in
such a way that direct drafts cannot
strike the birds. This applies not only
to the housing of adult birds in laying
houses, but also to the case of young
stock in colony houses on the range.
Further, a circulation of fresh air un-
der the hover in artificial rearing is
greatly to be desired and will have a
marked effect on the health and vigor
of the chicks.

Not only should the poultry house
be such as to furnish plenty of fresh
air, but it should also be tight. The
prime importance of sunlight in sani-
tation is universally recognized by
medical authorities. Disease germs
cannot stand prolonged exposure to
the direct rays of the sun. Sunlight
is nature's great disinfectant. Its im-
portance is no less in poultry than in
human sanitation.

WINTER CARE OF DUCKS.

Warm and Dry Quarters Needed For
the Production of Eggs.

Cold weather puts a brake on the
egg machinery of ducks unless they get
suitable care. Beginners must not ex-
pect a duck to stand cold as well as a
goose, writes A. W. Gallagher in the
Farm and Fireside.

An open shed in cold weather will
answer for geese, but will not do at all
for ducks. Neither should ducks be
kept in houses with other poultry.
There is sure to be constant distur-
bance among the birds.

If you want plenty of duck eggs in
season keep the ducks in a comfortable
place at night and see that they have
a dry floor with plenty of clean litter
or straw for bedding.

When the days are very cold and
winds, or when the snow is deep, I
usually keep the ducks indoors. After
they have been housed for several days
and need exercise I frequently shovel
the snow out of the yard and cover the
ground with litter or coal ashes and
turn the ducks out for awhile.

During thaws, no matter if the snow
is still deep, ducks enjoy paddling and
bawling through it in search of grass.
But when the ground is frozen hard
and there is frost in the air, their feet
seem to suffer when allowed out in the
snow. At times they will stop sudden-
ly, draw their feet up among their
feathers and, if forced to walk, will
bobble along as if their backs were
broken. The best laying breeds need
the most careful protection from storms
and cold.

SEA IS FREE, FIRST TIME IN HISTORY

THIS OPINION WAS EXPRESSED
BY CHURCHILL, BRITAIN'S
ADMIRALTY HEAD

Says France and England Can Keep
Germany Throttled Like Man
With Heavy Gags.

[ASSOCIATED PRESS TELEGRAM]
Paris, Feb. 2.—"For the first time
in history England can say 'the sea is
free,'" declared Winston Spencer
Churchill, Great Britain's first lord
of the admiralty, in an interview
with Hughes Leroux, editor of the
Matin. "In the days when you and
we fought each other," he continued,
"our most important victories never
brought us security comparable with
that which we enjoy today. Even
after Trafalgar we knew nothing like
it."

"Supposing Germany has friend-
ships and relationships in South
America, how can help reach her
from them now? There remains the
United States. Public opinion there
hesitates perhaps, in bestowing its
sympathies, but at the present mo-
ment, it is fully unified. We
shall arrange to take precautions
fully compatible with the right of
belligerents and the respect due to
neutrals."

"Our adversary perhaps can obtain
a few supplies from Turkey and Asia
Minor. I cherish no illusions for as
long as there are neutrals, a com-
plete blockade must be a chimera.
Germany will continue to receive a
small quantity of that whereof she
has considerable need, but while you
and we breathe freely thanks to the
sea, we have kept and can keep open,
Germany is like a map throttled with
a heavy gag. You know the effect
of such a gag when action is neces-
sary. The effort wears out the heart
and Germany knows it. This pres-
sure shall not be relaxed until she
gives in unconditionally for even if
you of France and if our ally Rus-
sia should decide to withdraw from
the struggle, which is inconceivable,
we English would carry on the war
to the bitter end."

"The action of a navy necessarily
is slow, but the pressure it exercises
on an adversary is unrelenting. Com-
pare it to the force of nature, to
the inexorable grip of winter and re-
member that it is a stress nothing
can resist."

Records That Endure.

A bungalow builder in California hit
upon a new idea when, in 1887, he
caused a little son to make impressions
of his little hands in the wet cement
of the walk before the door—stamped
outlines which are still perfectly clear
and which will always remain as duty
souvenirs of the boy's play days.

"It is just such touches of sentiment
as this," says the Strand Magazine,
"that produce the difference between a
house and a home."

True, very true, but nevertheless it
seems to us that such outside decora-
tive concrete work is superfluous, for
never did we visit a dwelling where
children had been reared without find-
ing many sweet mementoes of them on
the white enamel paint in the form of
edifying finger prints, which neither
soap nor sand nor time can ever erase.
—Boston Globe.

A Trick With Numbers.

Choose any four consecutive num-
bers, as 50, 51, 52 and 53. Multiply
them together, and the product may be
divided by 24. This will be found to
hold true for any four consecutive
numbers we may choose unless one of
the numbers is 24 or a multiple of 24,
such as 48, 72, 96, etc. In the same
way any five consecutive numbers multi-
plied together may be divided by 120
unless one of the numbers is 120 or a
multiple of 120.—Exchange.

A VACUUM SWEEPER FOR 4 CENTS A DAY

SEND NO
MONEY

This remarkable offer of the
"Sweet Home" for \$6.10 is covered by
the strongest guarantee that can be made.
Don't pay less than \$10 for a Vacuum Sweeper in
a retail store. A real Vacuum Sweeper can't be
sold for less than that price except on our direct-
from-the-factory plan.

If this vacuum sweeper does not please you in
every particular after you have used it free for thirty
days you can't lose a cent.

FREE 30 Days—Use It In Your Own Home—
See how it literally sucks in every disease-breeding germ,
every speck of dust, dirt and lint, how it raises the nap
on your carpets and rugs and makes them look like new;
how it keeps your home clean "all the time"; and how it
relieves you of the worst drudgery of housework.

Description—This illustration can only give a
faint idea of the splendid "Sweet Home" Sweeper. It
shows the three powerful bellows pumps, and the fine,
swiftly revolving brush. Either brush or vacuum nozzle
are detachable so that the machine can be used with either
attachment or both. All wheels fitted with solid rubber
tires. All metal parts heavily nickel-plated. The wheels
that create the powerful suction are mounted on steel
ball-bearings. Selected pressed steel top in three parts.
All wooden parts under strain are made of curly veneer
wood to prevent warping. Beautifully finished in rich
mahogany color. Sides have rubber guards to prevent
damaging of furniture. Self handle. Spring clip holds
handle upright when not in use.

QUAKER VALLEY MFG. CO.
104 Mill Street
Aurora, Illinois

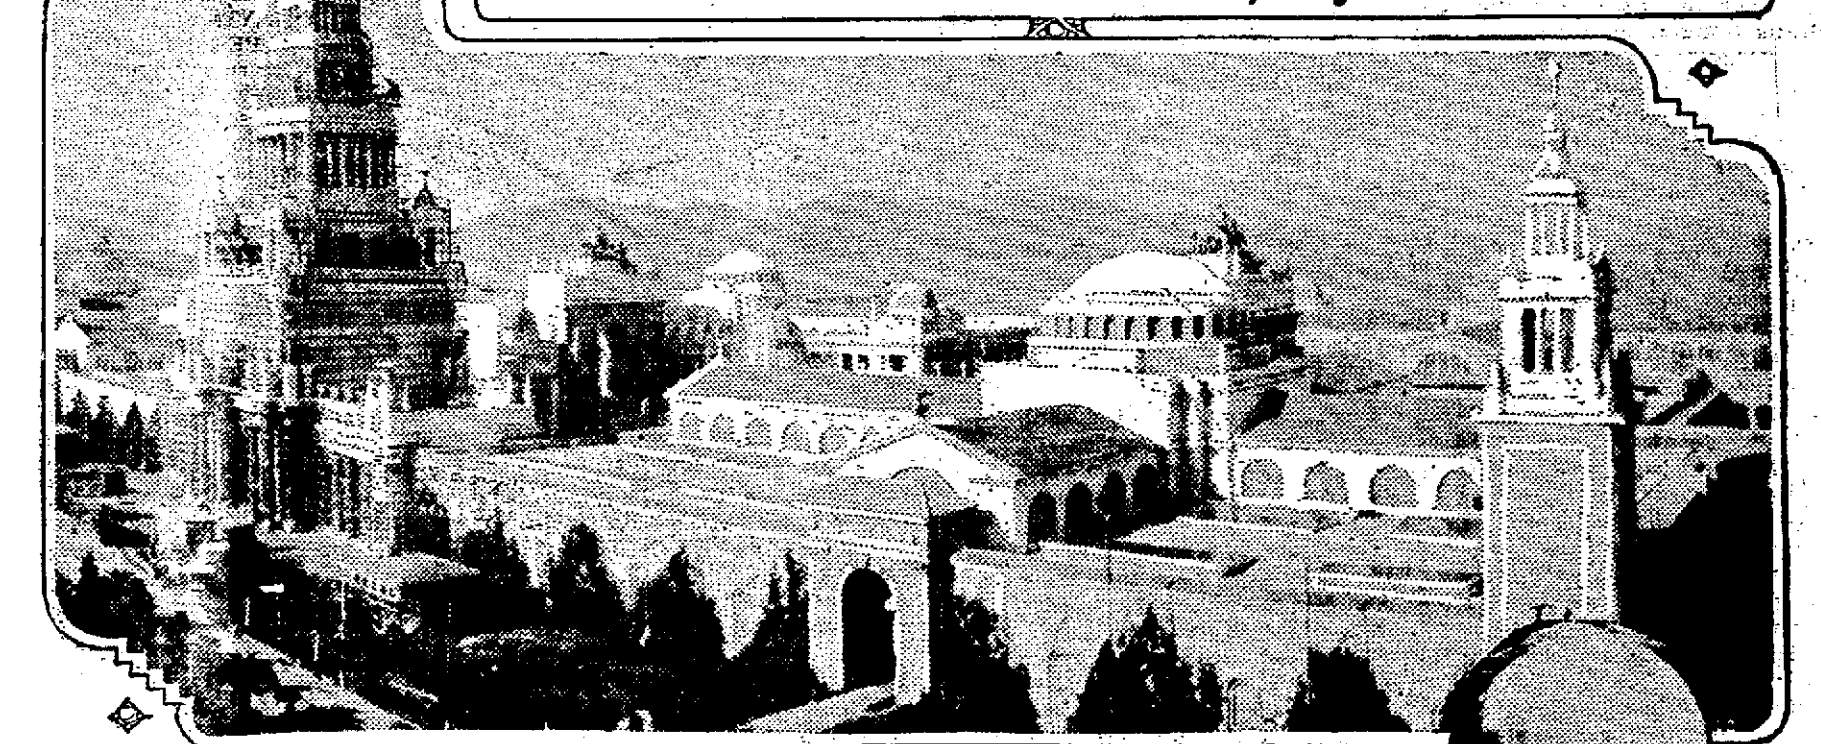

FREE—Don't Send A Penny—Just mail the
coupon with your full name and address and the
machine will be sent to you direct from the factory
—at the factory price. You make all payments by
mail. No canvassers, no collectors will annoy you.
Sweeper will be shipped promptly, complete with
4-foot handle, by express. You pay only the ex-
press charges on delivery. There is no C. O. D.
No strings are tied to this remarkable offer. It is
open to every reliable woman in the United States
who has a home to keep clean; also to her husband.
Sign the Coupon NOW and rush it to the mail box.

NO-MONEY-DOWN COUPON

Quaker Valley Mfg. Company, Aurora, Illinois.
I accept your remarkable offer to ship a Sweet Home Bell-
bearing Vacuum Sweeper, exactly as illustrated and described
in your advertisement, on 30 days' trial. I am pleased
and delighted I will keep it and remit direct to you one
dollar a month till the rock bottom factory price of \$6.10 is
paid; but I reserve the privilege of returning it to you any time
within thirty days from date of shipment in case it does not
fully come up to my expectations. This is the machine re-
main with you till paid for.

Marvel City at Golden Gate Unrivalled in Splendor; Powerful Influence for Peace, Says Vice-President

IN THE EXHIBIT SECTION, NEAR TOWER OF JEWELS, 435 FT HIGH

By R. B. HALE,
Vice President of the Panama-Pa-
cific International Exposition, who
first suggested the holding of the
great Exposition to celebrate the
opening of the Panama Canal.

The following splendid address,
expressing the keynote of the great
Panama-Pacific International Ex-
position at San Francisco, was de-
livered by Mr. R. B. Hale, Vice-
president of the exposition. Mr.
Hale is one of the notable public
men of America and this copy of
his address is of deepest interest
and significance.

Universal Expositions, of which
the Panama-Pacific International
Exposition is the fourth in the
United States, have always stood for
peace. In Philadelphia, in 1876, the
Honorable Joseph R. Hawley, Presi-
dent of the Centennial Exposition, in
his opening remarks said:

"From the association here of wel-
come visitors from all nations there
may result not alone great benefits
to invention, manufacture, agricul-
ture, trade and commerce, but also
stronger international friendship
and more lasting peace."

"Acquaintance softens prejudice"
has been ringing in my ears ever
since those three words were uttered
by a foreign graduate of one of
our American universities in a
speech delivered some years ago.
The learned statesman, Honorable
Elihu Root, voiced the same senti-
ment when about to leave the high
office of Secretary of State in sub-
stantially these words: "It were
impossible for any nation to be at
war if the people of the conflicting
countries understood each other."

Universal expositions soften prej-
udices, remove commercial antipathies
and settle political differences by
bringing the people of all nations
into friendly intercourse for the

discussion of ideas, the exchange of
commodities and for the advance-
ment of mankind socially, morally,
intellectually and commercially.
They reflect the thought and action
of peaceful pursuits, and reach their
greatest successes during or follow-
ing long periods of national and in-
ternational peace. Their exhibits
are the product of the arts of peace
and their object is the promotion of
peaceful activity in thought and
word and deed. They are the anti-
thesis of war, the embodiment of
peace. Their grounds are set apart
as extra territorial devoted to the
use of all nations and all peoples on
a parity and equality. The Panama-
Pacific International Exposition
grounds today are common to all.
No creed or race is barred all hav-
ing equal rights and privileges. It is
neutral ground for warring or tran-
quil nations alike. It is one great
democracy where all unite in con-
tributing to an expression of grati-
tude for the present and inspiration
for the future, and because the Ex-
position is really the child of peace
do we deem it a privilege, even a
duty, to enter our protest against
the terrible conditions now prevail-
ing in Europe.

It is idle to presume that anything
that we can do here today will have
any material influence in the immed-
iate settlement of the greatest war in
history, involving more than half
the people of the civilized world,
but we can raise our voice in earnest
protest against conditions in Europe
too terrible to contemplate in loss of
life, in the destruction of property,
in the suffering of homeless women
and children and in the effect upon
the settlement of the terrific conflict
which is checked, industries are par-
alyzed, civilization is being forced
backward, human impulses are being
supplanted by the brutal practices
of war. The cry of the innocent
have sounded a call for relief, and
with dynamic force that call is re-
newing a sentiment through the
length and breadth of this country
for peace. Peace is the only course for the

and serious and determined. That
one word has taken on a new signifi-
cance, a new meaning—Peace.
Peace for humanity, Peace to pursue
the upward and onward course of
civilization; peace and rest and tran-
quility for the millions who suffer-
ing in spirit as those unfortunate
soldiers are suffering in body—
royalty and subject together in the
present awful European conflict.
They desire a cessation forever of
the super-cruel methods of warfare
as a means of settlement of inter-
national contention.

Each closing day hope looks for-
ward to the morning longing that
word shall come that our brothers
in Europe shall have laid aside their
arms. That glorious day must come
and when it does will it not be pos-
sible to respond to the world's will
that the sword of anger and of hate
be sheathed forever? Then come the
time for international convention
and treaty. Great statesmen will be
engaged in negotiating the tremen-
dous document. Speaking out of in-
experience and from afar, among
myriad minds, we ourselves hope
that in this treaty there shall be es-
tablished such a basis of defense on
land as is alone necessary to protect
local peace, and that such armed
ships as are necessary to police the
sea shall alone be permitted; each
nation contributing its quota to this
international naval police, which
shall be controlled in its movements
by an international admiralty whose
whole duty shall be to preserve
peace instead of prepare for war.

The Exposition in San Francisco
will have reached its highest pur-
pose if it can in any way assist in
the settlement of the terrific conflict
which is now being waged with such
titanic fierceness, hellish weapons
and awful consequences. The Expo-
sition, being set apart on extra ter-
ritorial grounds dedicated to the use
of all nations on terms of equality,
could fittingly, without prejudice or
embarrassment, be used for a peace
conference designed to settle the
differences of the warring nations

Denison Conservatory Of Music

GRANVILLE, OHIO
Second Semester
Begins Feb. 8th.
Piano, Voice, Violin, and Organ
taught in private lessons.
Classes in History of Music, The-
ory and Harmony begin Feb. 8th.

New Corn Cure A Real Marvel

Guaranteed and Absolutely Painless.

A corn cure that is painless and
that will really do the work has fin-
ally been discovered. Heretofore, the
poor sufferer from corns has been
pestered with "drawing" salves and
plasters that swell the corns and
has had finally to gouge out his corn
and inflict upon himself still greater
pain. With Hall's Painless Corn
Cure all pain ceases on the first ap-
plication and then finally the corn
comes right off easily and painlessly.
You don't have to dig it out and run
the risk of drawing blood, making
your corns still more sore or getting
blood poison.

Hall's Painless Corn Cure is easier
to use than any other; it takes a few
seconds to apply it. It is guaranteed
absolutely in every case. You must
be satisfied or back goes your
money.

Lasts longer than several packages
of any other corn treatment and
you are sure to get rid of corns and
bunions. Sold at 25 cents a bottle at

HALL'S DRUG STORE

10 North Side Square.

R. B. HALE

and bring about the signing of a
treaty of peace for which the world
is praying.

One effect of the war now in
progress will be to emphasize the
importance of and intensify the in-
terest in the great International
Peace conference projected by the
management of the Exposition. Let
us hope that this war may be
recorded history before this congress
convenes. The horrors of present
day warfare will then be fully ap-
preciated and those directly affected
may be available with their expe-
rience and advice to assist in prepa-
ring a code of international law and
police powers and provide such other
recommendations as may be best
fitted to insure lasting peace.

And when we look into the
future may we find the new cycle of
brotherly love superseding the dis-
cord of today. May the settlement
of international strife by war, and
blood and suffering, and devastation
be supplanted by conference and ne-
gotiation and arbitration then will
follow rest and peace and content-
ment for the everlasting enjoyment
of mankind. As John G. Whittier
beautifully expressed it in his cen-
tennial hymn in 1876:

"Oh, make Thou us thru centuries
long
In peace secure, in justice strong;
Around our gift of freedom draw
The safeguards of Thy righteous
law,
And cast in some diviner mold
Let the new cycle shame the old."

District Meeting.
District No. 14 of the Central Church of Christ will meet Wednesday afternoon at 2:30 o'clock at the home of Mrs. J. W. Hatfield, 66 Oakland avenue. All members living in the district are urged to be present.

AMOLOX THE NEW DISCOVERY

Many Cures Reported Daily in Towns Where It is Known.

The wonderful cures that are being made by this remarkable new remedy are almost beyond belief.
A young lady from Ottumwa, Iowa, for many years suffered from a bad case of eczema. Her face was a sight to behold, all covered with red blotches, pustules and pimples. So unsightly was her appearance she gave up all social life. Failing to find relief with doctors and remedies, she became despondent and discouraged. After a few weeks' treatment with liquid and ointment, the scales redness disappeared, pustules healed and she was entirely cured. A few months following her mother wrote that Amolox had done wonders for her daughter, and she was married last week.

This is only one of the many cases that are being reported in towns where Amolox has been introduced and its merits have become known. Amolox Ointment will quickly banish pimples, blackheads, and all minor skin troubles. Bad cases of Eczema, Psoriasis, Tetter, and skin diseases lasting for years, should use both ointment and liquid to effect a cure. Trial size, 50c. Guaranteed by T. J. Evans.

Ashbrook Appointed.

President Wilson yesterday designated Congressman W. A. Ashbrook, as one of the new assay commissioners.

Salem Aid Society.
The Salem Aid Society will meet with Mrs. Christian Kammerer, 66 South Fourth street, Thursday, February 4, at 2 p. m.

Stop Here.
The members of the Oberlin Basketball club took luncheon and dinner at the Sherwood Hotel on Monday enroute to Granville to play Denison.

Recovering from Pneumonia.
William Davidson employed at the Conrad grocery company who has been ill with pneumonia at his home in Spring street is now convalescing.

Meeting Postponed.
The meeting of district six of Central Church of Christ to be held at the home of Mrs. Cochran in Western avenue, has been postponed for two weeks, Feb. 18.

Candlemas Day.
Tuesday, February 2, was solemnized in the Catholic churches as Candlemas day, the day on which the candles are blessed for the use during the year and are distributed.

Y. P. B. Meeting.
All members and those interested in Y. P. B. work please meet this evening at the Neil M. E. church at 7:30. Mrs. Mary Stewart Powers, state superintendent, will be with us.

Breaks Three Ribs.
George Stinger, residing at 26 Maholin street, was injured on Monday when some of his friends attempted to play a joke on him. Mr. Stinger is employed as a blacksmith at the B. & O., and was sitting on a truck, when some one jerked it from beneath him. The truck struck his side and broke three ribs. The fracture was reduced by Dr. J. W. Barker.

Attention Lemert Post.
Once more we are called to the house of mourning to pay our last tribute of respect to our late comrade, Ezra Smith, whose funeral will take place at his late home, 133 Ninth street on Wednesday morning at 10 o'clock. The widow of the deceased requests all the comrades to be present. F. C. King, commander. Sleet Storm Anniversary.

One year ago Saturday occurred the great sleet storm over Ohio which toppled over miles upon miles of telephone poles tearing the wires with them. Trees by the hundreds were broken down and the damage ran into the millions. Here in Licking county we were more fortunate and but little damage was done.

Struck by Machine.
Mr. Bartley Costello, was struck by an automobile at the corner of Fourth and Commodore Sts. at noon today. The machine was driven by Dr. Florence Stir Smith and Mr. Costello was knocked down and received several bruises and a cut on the head. He was taken to his home at 590 North Fourth street.

Business Increasing.
The Baltimore & Ohio railroad shops at Murphysboro, Ill., employing 1,900 men re-opened yesterday. The Champion Iron Works at Kenton, Ohio, put on a large number of new men, the Tiffin Glass works is running up to normal capacity and this is the case in many other Ohio cities. These are signs that prosperity is on the way.

Splendid Concert.
The Wittenberg College Glee club and orchestra, of Springfield, O., composed of twenty-five young men gave a delightful concert at the High school auditorium last evening which was enjoyed by an audience which filled the hall. The program was a varied one, consisting of concert work in chorus, quartets, duets and solos. The orchestra arrangement was also splendid and the concert as a whole was very pleasing.

In Police Court.
Four drunks arraigned before Mayor Bigbee drew fines of \$5 and costs Tuesday morning. A young man implicated in the theft of brass from the B. & O. railroad company was brought in on an affidavit and was given a suspended sentence on condition that he mend his ways and pay the fine when he secured work. It was his first offense according to the police.

Five Zero Days.
There were five zero days in January according to those who have kept track of the weather in this vicinity. The mean temperature was 26 degrees while last year it was 35 degrees. January 24th the thermometer fell to eight and ten degrees below zero. There was a snowfall of two feet and there were several inches on the ground Jan. 1. On Saturday, Jan. 31 there was about a foot of snow on the ground. During the month seven days were clear, ten partly cloudy and fourteen cloudy.

DISTRICT DEPUTY WILL BE PRESENT AT ELK MEETING

Jess W. Smith of Washington, C. H., district deputy grand exalted ruler of the Elks will meet with the local order tonight at their lodge rooms in the Oriol block and it is the desire of Exalted Ruler Fletcher S. Scott that there be a large attendance to meet the district deputy.

There will be an initiation which will be followed with a social session at which a buffet luncheon will be served by Steward Colonel Billy Hohl. He promises to have something appetizing and when Mr. Hohl makes a promise he usually fulfills it.

FACTS ABOUT ASSOCIATED CHARITIES

Office—Room 14, Hibbert & Schaus building. Automatic telephone No. 4311.

Officers—President, E. C. Wright; vice president, W. M. Morgan; secretary, Wilson Hawkins; treasurer, Chas. W. Montgomery; superintendent, William E. Hopkins.

Office hours—9 a. m. to 12 noon. Applications for relief received between the hours of 9 and 11 a. m. The hours from 11 to 12 are devoted to conferences with representatives of other welfare agencies. From 1 to 5 p. m., outside work, investigations, special conferences with committees, clubs and other agencies interested in the welfare of Newark. From 7 to 10 p. m., the superintendent is open to engagements to address public meetings or confer with organizations, committees and individuals on public welfare. The remainder of the time reserved for correspondence, records and other duties.

Visitors will be welcome during office hours and at other times by appointment.

On Thursday Superintendent Hopkins will begin a series of articles on organized charities and public welfare work. This will be accompanied by reports of the work.

CONTEST

OVER MAJORITY OF CANTON DECIDED AGAINST THE SOCIALIST CLAIMANT.

Term Has Ended and Only Effect of Decision is to Tax Cost.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Feb. 2.—By affirming the decision of the court of appeals the supreme court today ended the long-drawn majority case brought up from Canton. The decision holds that Mayor Turnbull was entitled to the office as the term has long since ended the only effect of affirmation of judgment is to throw the costs of the contest upon Schilling, the Socialist contestant.

In the election, Turnbull and Schilling had each received the same number of votes. Turnbull won the office by flipping a coin.

Point For Breeders.
Any particular breed is more or less hard to breed true to color and markings. This is also the case with breeds of the buff color, with the probable exception of Cochins. White or black color is more easy to obtain.

White and Black Lies.
"What," queried the young man, "is the difference between white lies and black lies?"

"White lies," answered the home grown philosopher, "are the kind we tell. Black lies are the kind we hear."
—Chicago News.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. You can now get the relief and help that mustard plasters gave, without the plaster and without the blister.

MUSTEROLE does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Just massage MUSTEROLE in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears.

And there is nothing like MUSTEROLE for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it often prevents Pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

BREAKS A COLD, OPENS CLOGGED HEAD AND NOSE

Relief comes instantly.
A dose taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

RIVERS RISE

(Continued from Page 1.)
and is rising at the rate of four inches an hour. From present indications 54 feet or better will be reached. The Scioto is rising more rapidly than the Ohio and probably will do the most damage.

OHIO ABOVE FLOOD MARK AT PITTSBURG.
(ASSOCIATED PRESS TELEGRAM)
Pittsburg, Feb. 2.—The Ohio river passed 24 feet, two feet higher than the accepted flood mark at seven o'clock this morning and continued to rise at the rate of six inches an hour. Great blocks of ice were swept out of the Allegheny, and reports from upstream points indicate that a great deal of water was yet to come from that water shed.

The Monongahela river was stationary, but flooded streams in northern West Virginia have only commenced to put out night. Scores of families in the lower wards of the old city of Allegheny were moving, many of them being taken out of their flooded houses in police boats. The warm rain continued and there was much discomfort.

COMMUNICATION IS HAMPERED BY SLEET.

(ASSOCIATED PRESS TELEGRAM)
Chicago, Feb. 2.—Weather conditions today continued to hamper telegraph and telephone companies and communication with many points was difficult and in some directions cut off.

The sleet storm of yesterday succeeded in much of the district affected, by somewhat lower temperatures, which congealed the ice on the wires and made breaks numerous. From Kansas and Missouri came reports of two to six inches of snow, causing much delay to traffic.

MANY ACCIDENTS ON SLIPPERY PAVEMENTS.

(ASSOCIATED PRESS TELEGRAM)
Cleveland, Feb. 2.—Steam and electric railway service was interfered with, telephone and telegraph lines were impaired; pedestrians were endangered by slippery sidewalks and many sustained injuries early today as a result of the sleet storm which lasted several hours after last midnight. In some sections of the city trolley wires fell under weight of the ice temporarily crippling traffic. The colder weather temporarily checked danger of floods but ice gorges in the Cuyahoga river and other streams in this section may yet cause damage, weather officials say.

BLIZZARD RAGING THROUGH WISCONSIN.

(ASSOCIATED PRESS TELEGRAM)
Milwaukee, Wis., Feb. 2.—A blizzard of unusual proportions is sweeping throughout Wisconsin paralyzing traffic of all kinds. There was scarcely an outlet from Milwaukee either by telegraph or by telephone up to noon and steam and electric railroad schedules have been knocked out of all semblance to regularity.

B. & O. ISOLATED AT PITTSBURG BY FLOOD.

(ASSOCIATED PRESS TELEGRAM)
Pittsburg, Pa., Feb. 2.—Flood waters of the Allegheny river isolated the north side station and tracks of the Baltimore and Ohio railroad soon after 10 o'clock this morning at which hour exposition park, home of the Pittsburgh Federal league baseball club was too feet under water.

Rivermen estimated that several thousand persons living in towns along the flooded streams and already moved to high ground. The weather bureau expressed the belief that the flood would not pass 28 feet and that crest would be reached tonight.

POTTERIES FLOODED AT EAST LIVERPOOL.
(ASSOCIATED PRESS TELEGRAM)
East Liverpool, O., Feb. 2.—Four potteries and a part of the municipal pumping station were flooded by the Ohio river today. Several hundred persons were driven from their homes in the lowlands in the western part of the city but there were no fatalities.

The river reached 30 feet at 10 a. m. and was still rising eleven inches an hour.

LICKING BRIDGES NOT DAMAGED.
The county commissioners early this morning received word that the high waters and ice were wrecking the St. Johns bridge and upon investigation, which they made personally, found that a span had broken but it was not caused by ice or high water. It will be repaired at once. Another call to the commissioners warned them to look after the bridge at Horn's Mill. There is no danger there at the present time.

A German inventor has perfected a machine to test the elasticity of rubber from samples accurately.

ALL-DAY MEETING AT BAPTIST CHURCH WEDNESDAY, FEB. 3

The Moody Bible Institute of Chicago will conduct undenominational "Christian Workers' Conference" on Wednesday, Feb. 3, to which all the pastors and Christian Workers of the county have been invited.

This conference has been arranged through the courtesy and cooperation of the pastor and members of the Fifth Street Baptist church, where the Rev. Franklin W. Swift, D. D., is conducting evangelistic meetings.

A most cordial invitation is extended to all pastors and Christian workers.

Wednesday Morning.
10 o'clock—Song and Devotional Service.
10:30 o'clock—A Study in the Gospel by John, Rev. William Wallace Ketchum, of Chicago.
11 o'clock—Walking with God, Rev. L. W. Gosnell, of Chicago.
11:45 o'clock—Dinner basket lunch—hot coffee will be served by the church.

Wednesday Afternoon.
1:15 o'clock—Song Service.
1:30 o'clock—Some Ancient Foes and How to Face Them, Rev. L. W. Gosnell.

2:15 o'clock—Ready to Preach the Gospel, Rev. William Wallace Ketchum.

2:45 o'clock—Seventeen Years a Tramp, Mr. Vance S. Shober, of Chicago.

3:30 o'clock—Address, Rev. Franklin W. Swift, D. D.

Wednesday Evening.
7:30 o'clock—Evangelistic service, Rev. Franklin W. Swift, D. D.

THE BEST THING FOR DYSPEPSIA

WHY PEPSIN, PANCREATIN, ETC., SO FREQUENTLY FAIL.

An international specialist whose articles on stomach trouble have been printed in nearly every language, recently stated that to treat the average case of stomach trouble, indigestion, dyspepsia, etc., by doctoring the stomach, killing the pain with opiates, or the use of artificial aids to digestion such as pepsin and pancreatin, was just as foolish as useless as to attempt to put out a fire by throwing water on it. The speaker, instead of the fire, he claims, and facts seem to justify his claim, that nearly nine-tenths of all stomach trouble is due to acidity and food fermentation, and that the only way in which to secure permanent relief is to get rid of the cause, i. e., to neutralize the acid and stop the fermentation. For this purpose he strongly recommends the plan now generally adopted throughout Europe of taking a teaspoonful of ordinary insured magnesia in a little water immediately after eating, or whenever pain is felt. This immediately neutralizes the acid, stops the fermentation, and permits the stomach to do its work in a normal manner, and thus by removing the cause, enables nature to quickly restore the inflamed stomach lining to perfectly healthy natural condition. For the convenience of travellers it may be noted that Evans' drug store is now able to supply instant magnesia in 5 grain tablets, 2 or 3 of which will almost instantly relieve the most violent attacks of indigestion.

CHECK WORKER TRAVELS WEST IN OPERATIONS

The clever check forger who has been victimizing individuals throughout the south is transferring his operations from time to time, working in a westerly direction. He probably will wind up in San Francisco with a big roll of money to do the big exposition.

It will be remembered that the man using various names in working the checks, chief of which was Charles H. Smith. He drew checks on blanks purporting to have come from the Newark offices of the "Graves Manning Mfg. Co.," a fictitious Newark firm. The checks were drawn on the Commercial National Bank of Newark, also a fictitious concern.

The last check received by local banks was one about 10 days ago which came to the Franklin bank. It was from a point in Mississippi. Before that time, the checks turned up regularly, his travels being traced from Georgia, through Florida, South and North Carolina, Virginia, West Virginia, Tennessee, Missouri, Arkansas, Louisiana and Mississippi.

He has been careful to operate so the losses come on individuals rather than banks, as one fraud perpetrated upon a bank would bring the detective bureau, working for the bankers organization, hot upon his trail and his liberty would be short lived.

Efforts of local bankers to get a description of the man have failed, letters to towns where he has operated being ignored.

CHARLES WATKINS SUFFERS STROKE MONDAY AFTERNOON

(Special to The Advocate)
Granville, Feb. 2.—The many friends of Mr. Charles Watkins will regret to learn of his serious illness at his home in West Newbury. Apparently in his usual excellent health Mr. Watkins was returning to Granville on the 12th electric car, yesterday afternoon, when he suffered a sudden stroke which left him helpless and unconscious. He was taken home, where doctors were immediately summoned and every means applied for his relief.

Dedicate Children usually only need a food tonic to make them strong and healthy.
Rexall Olive Oil Emulsion containing Hypophosphites is not only the best food tonic but is pleasant to take. Sold only by us.

SAGE TEA DANDY TO DARKEN HAIR

Look years younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight and you'll be delighted with your dark, handsome hair and your youthful appearance with a few days. Agents, Hall's drug store.

Prompt Action Will Stop Your Cough
When you first catch a cold (often indicated by a sneeze or cough), break it up at once. The idea that "it does not matter" often leads to serious complications. The remedy which immediately and easily penetrates the lining of the throat is the kind demanded. Dr. King's New Discovery soothes the irritation, loosens the phlegm. You feel better at once. "It seemed to reach the very spot of my cough," is one of your honest testimonials. 50c at your druggist.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers—Most forms uric acid.

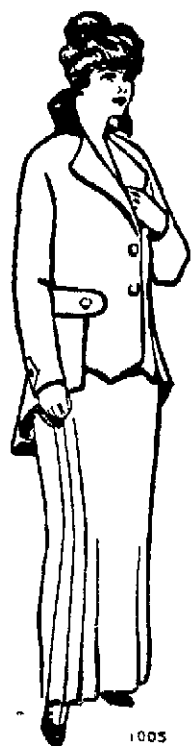

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headache, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

The Japanese, it is said, are producing more than 20,000,000 tons of coal a year from mines in Japan and South Manchuria.

KRUGER'S GRANDSON ON TRIAL FOR TREASON.
[ASSOCIATED PRESS TELEGRAM]
Pretoria, via London, Feb. 2.—Pieter Grobler, a member of the parliament of the Union of South Africa and a grandson of Paul Kruger, has been committed for trial on a charge of treason.

Read Advocate Wants tonight.

DEMONSTRATION OF ORIGINAL AND FANCY DANCES

In publishing the program of the olio for the Elks' minstrels in Monday's paper one of the most important acts of the minstrel was inadvertently omitted, that of Mr. Walter F. Brown and Ned Putnam. These young gentlemen will be seen in the latest and original dances.

The news that Messrs. Brown and Putnam will stage a dancing act will be received with much pleasure by those intending to witness the Elk entertainment. These two young

WALTER F. BROWN.

men possibly have no peer in the state as exponents of the latest dances. Their every move is grace itself and they will be a revelation even to their most intimate friends.

Messrs. Brown and Putnam have arranged the steps of two of their dances and the others which they will demonstrate are of the latest fancy dances given in the large cities. They have been highly complimented for their work and the Elks were indeed fortunate in securing these young men for the minstrel.

The reserved seat sale for the minstrel will open at the box office at 10 o'clock next Monday morning and each person applying may reserve ten seats. The Elk committee positively guarantees that not a single seat will be "pulled" in advance for any one. Those first in line will find a clear board. The minstrel will start promptly at 8:15 o'clock and any one coming into the theatre after that hour will have to wait until the drop of the curtain before they can be seated.

NEWARK HOSPITAL

(Continued from Page 1.)

Prout, Lee Riley, Edward Kibler Sr. and C. H. Spencer.

Two year term—S. F. Van Voorhis, Frank L. Beggs, H. D. Woodbridge and James P. Irwin.

One year term—Geo. B. Sprague, Roe Emerson, E. C. Wright and A. H. Heisey.

Board of Managers.

Three year term—Mrs. W. H. Davis, Mrs. A. J. Baldwin, Mrs. Linnie Allen, Mrs. Edward Kibler Sr. and Mrs. Louis Daerr.

Two year term—Mrs. Frank P. Kennedy, Mrs. W. D. Fulton, Mrs. F. M. B. Windle, Mrs. Guy Billingslea and Mrs. H. D. Woodbridge.

One year term—Mrs. Omar Crane, Mrs. A. R. Pitzer, Mrs. J. F. Irwin, Mrs. Kate Roe and Mrs. S. F. Van Voorhis.

While the tellers were counting the ballots addresses were given by Dr. U. K. Essington, Eli Hull, S. F. Van Voorhis, William L. Prout, Charles Butler, Dr. H. H. Postle and A. S. Mitchell.

Treasurer's Report.

Wm. L. Prout, treasurer, submitted the following report covering the period April 27, 1912 to February 1, 1913:

Received on Subscriptions to date	\$19,792.12
Borrowed Money	20,000.00
Total Receipts	\$39,792.12
Total Subscriptions	\$19,792.12

Disbursements.

Balance On Hand \$ 631.17

A contribution of \$100 has just been received from Frank L. Packard, the architect.

The foundation for an endowment fund has been laid by Mr. and Mrs. E. H. Everett with \$10,000 7 per cent preferred stock of the American Bottle company, the income from which will be used to maintain the institution. We confidently expect this fund will grow.

Secretary's Report.

Mrs. Frank Windle, secretary of the board of managers submitted the following written report:

The board of managers of the City Hospital has held twelve regular meetings and five called meetings during the year 1914. The average attendance has been eleven. There have been thirteen members during this year.

In the month of May, notices were printed in the daily papers, regarding the furnishing of rooms in the new building. A generous response resulted and fifteen patients' rooms have been furnished by the following persons:

Mrs. Edw. Thomas, Mrs. Frank Howard, Col. Chas. Kibler and Mrs. Edw. Kibler, Mrs. Geo. Orr, Miss Irene Jones two rooms, Mrs. A. H. Heisey, Mrs. W. N. Fulton, Mrs. W. D. Fulton, Mrs. W. C. Miller and Mrs. Frank Kennedy. Order of Eastern Star, Altar Guild Episcopal church, Silent Circle King's Daughters, St. Paul's Lutheran church and Twentieth Century club, a club of young girls who have furnished the nursery.

These rooms yield a weekly income of from \$15.00 to \$30.00 when filled. Many gifts have been received of fruit, linens, cash and furnishings from churches and friends.

Special gifts are the furnishings for the superintendent's office from Mr. C. H. Spencer; \$50 from The King's Daughters of the city, being the Lott memorial fund. This money will be used to furnish the maternity room.

A wheel chair from the Miscellaneous Workers' club, value \$35. An aseptic wardrobe from Mr. S. E. Alban, manager of Stewart Bros & Alward Co. for the nursery. If the secretary has neglected to mention a gift it is not from lack of appreciation but because it has not been reported. May I state for the benefit of someone present who wishes to make a gift in the future, that the nurses' home is in great need of rugs, chairs, good books, pictures or articles that will make the rooms more cheerful.

More than five years ago \$85 was set aside to furnish a six-room house for our nurses. Little has been added, except the old furnishings from the hospital, most of which were old when placed in the hospital years ago.

In May an equipment committee was appointed, consisting of Mrs. Van Voorhis, Mrs. Woodbridge, Mrs. Billingslea, Mrs. Kennedy and the secretary. Busy days ensued for this committee, and the last detail was attended to but last week when the Diet kitchen was furnished complete. In July a committee was appointed by the chair to draft rules and regulations for the management of the hospital. This has been very carefully and creditably done by Mrs. Edw. Kibler, Mrs. Chas. Allen and Mrs. W. H. Davis.

In July 1914, our present superintendent, Mrs. Leibo took charge of affairs and is giving her best to the institution we feel. The training school has been enlarged and fourteen pupil nurses are now in training. The larger building has required a larger force to manage it and nineteen persons are now on our payroll. This includes superintendent, nurses, matron, orderly, cooks, waitress, laundress, janitors and cleaners.

The secretary has written thirty letters and received nine. The reports of the commencement in June, and of the opening of the new building, have been entered upon the secretary's book, and the minutes of each regular meeting and all called meetings.

An auxiliary of over 100 women was organized in January by Mrs. Frank L. Beggs. The aim of this auxiliary is to serve once a month for the hospital. All garments worn by patients, nurses' gowns and operating gowns, sheets, pillow cases and towels are made by this auxiliary to the board of managers.

GERMANS RENEW FIERCE OFFENSE, RUSSIA REPORTS

SUDDEN AND SUCCESSFUL ASSAULTS ARE, HOWEVER, NOTED FROM PETROGRAD

At Points Along the Eastern Front That Counterbalance Activity of Tuetons.

[ASSOCIATED PRESS TELEGRAM]

Petrograd, Feb. 2.—Renewal of a fierce offensive by the Germans in the region of Sochaczew and Bolimow on the road to Warsaw is admitted in an official statement issued here today. The violence of the German attack, the statement says, compelled some of the Russian units to retire to the second line of trenches. The communication was as follows: "On the right bank of the Lower Vistula on Jan. 31, our cavalry made a sudden and successful assault upon the German line along the front between Brezun and Lake Orzelejo 13 versts (13 miles) north of Sierpec capturing many officers and soldiers. "The attempt of the Germans on the 30th to open an offensive movement in the direction of Lipno and Dobryd, supported by artillery fire, was checked.

"On the left bank of the Vistula front at the villages of Makow and Dyblin, the enemy was thrown back to the line of the villages of Woleza and Nasignewo, northwest of Wloclawke. The Germans in retreating abandoned at Makow many of their dead.

"In the course of the day of Jan. 31, the enemy, after having concentrated in the region of Sochaczew, Bolimow and South of Bolimow, a large force of artillery developed active operations against our positions with very considerable forces. The German offensive was distinguished by great tenacity, advancing in close ranks strongly supported from the rear.

"After having concentrated a violent fire in the morning upon that region, the fierceness of the German offensive compelled some of our units to retire to the second line of trenches."

A DEMONSTRATION BRIGHT'S DISEASE.

A permanent recovery in a critical case of Bright's Disease should be of general interest. Here is another:

Nine years ago W. E. Strickland of 236 5th street, San Francisco, was so far down with Bright's Disease that he had convulsions nearly every day for three weeks and the end did not look far away. His physician, Dr. Kelly, thought there was no hope. The late E. L. Baldwin, President of the Ferry Drug Company, was instrumental in having Fulton's Renal Compound administered. There was not only a recovery but it was permanent, for the patient called, apparently well on February 27, 1914, and left a specimen which tested normal as follows: Specific gravity 1024; albumen none; sugar none.

The ability of Fulton's Renal Compound to reduce albumen in many cases of Bright's Disease is not a matter of opinion but a FACT IN PHYSICS. We will mail formula for albumen test that will show the percentage from week to week. As the albumen disappears, improvement commonly follows, recoveries having been reported in thousands of cases. Formula and literature sent on request. John J. Fulton Co., San Francisco. F. D. Hall is local agent Ask for pamphlet.

VON KLUCK'S SON FALLS IN BATTLE.

[ASSOCIATED PRESS TELEGRAM]

Berlin, via Amsterdam and London, Feb. 2.—The eldest son of General von Kluck, who was a naval lieutenant, is reported to have fallen in an artillery battle near Middelkerke, on Jan. 26.

All former non-commissioned officers who are under fifty years of age have been called to drill new recruits.

HUNDREDS OF WOMEN.

nowadays are entering the professions or business world and go to work day after day in bad health, afflicted with some female ailment, dragging one foot wearily after the other, working with an eye on the clock and wishing for closing time to come.

Women in this condition, should take Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. It has brought health and happiness to more women in America than any other remedy. Give it a trial.

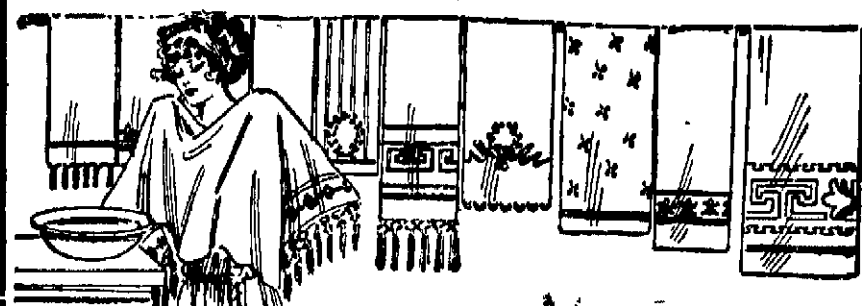

QUIET IN CAUCASUS.

[ASSOCIATED PRESS TELEGRAM]

Petrograd, Feb. 2.—An official communication issued by the general staff of the army of the Caucasus says:

"There were no engagements of importance at any point on the front on Jan. 31."
